AI ACADEMY · LEVEL 3 · GRADE 8 · WEEK 29 · WORKBOOK

Copyright and Provenance

Learn to understand, design, build, test and explain AI systems responsibly.

Project: Verified Study Buddy

THE CONNECTED WEEK

One connected source-permission and provenance record.

Explain terms, trace a public adaptation, audit scope and design a revealing use change.

Keep one habit: Keep source/version, creator, edits, audience, credit and unresolved rights information together.

MAIN LESSON · SECTION 1

Recall: reconnect earlier ideas

> Retrieve before opening notes.

Retrieve and explain

- Try the recall before opening notes. Then use a different colour or a labelled second line to correct your explanation.

- Without opening the old lesson, explain one key idea from Privacy by Design. Give an example and a mistake that the idea helps you avoid.

- Without opening the old lesson, explain one key idea from Evaluation Sets. Give an example and a mistake that the idea helps you avoid.

- Without opening the old lesson, explain one key idea from Block to Python Bridge. Give an example and a mistake that the idea helps you avoid.

My remembered idea, example and correction

My remembered idea, example and correction

My remembered idea, example and correction

▼ Earlier wording, alternatives and picture transcripts

Privacy by Design

Evaluation Sets

Block to Python Bridge

W1 · Explain permitted source use

> Separate access, provenance, attribution and permission.

Your evidence record

- Fictional W2: L allows credited classroom display but no public redistribution; M allows adaptation/public redistribution with credit. Image A has L, B has M; public adapted poster can use B with credit. Main case F1/Fern allows credited unchanged public redistribution, not crop; M1/Moss allows crop+public redistribution with credit. Provenance records origin/edits; attribution does not override a stated restriction.

  Unknown terms remain unresolved, including generated assets.

- Reference for this exercise: open this week's student lesson, "Copyright and Provenance", at "See how it works" and "Follow a worked example". Use the original worked values or code named in the question; the later pictorial case is a separate example. Keep this reference beside your workbook while practising.

- Explain the weekly **mechanism** in your own words. Use the worked scenario to name its **input**, decision rule and **output**.

My reasoning and evidence

MAIN LESSON · SECTION 13

W2 · Trace the L/M poster decision

> Apply each term to public adaptation.

Your evidence record

- Fictional W2: L allows credited classroom display but no public redistribution; M allows adaptation/public redistribution with credit. Image A has L, B has M; public adapted poster can use B with credit. Main case F1/Fern allows credited unchanged public redistribution, not crop; M1/Moss allows crop+public redistribution with credit. Provenance records origin/edits; attribution does not override a stated restriction.

  Unknown terms remain unresolved, including generated assets.

- Image A has L; image B has M. The project is a publicly downloadable adapted poster. Show the intermediate steps and give the conclusion with its scope.

My reasoning and evidence

MAIN LESSON · SECTION 14

W3 · Audit legal overgeneralisation

> The fictional rules do not establish universal copyright outcomes.

Your evidence record

- Fictional W2: L allows credited classroom display but no public redistribution; M allows adaptation/public redistribution with credit. Image A has L, B has M; public adapted poster can use B with credit. Main case F1/Fern allows credited unchanged public redistribution, not crop; M1/Moss allows crop+public redistribution with credit. Provenance records origin/edits; attribution does not override a stated restriction.

  Unknown terms remain unresolved, including generated assets.

- A report omits this qualification: Real legal outcomes depend on jurisdiction and facts; supplied **licence** terms define this classroom exercise, not universal **copyright** law.

  Explain how omitting it could change a reader's interpretation, and write an accurate replacement.

> **My reasoning and evidence**

MAIN LESSON · SECTION 16

W5 · Design a revealing permission change

> Specify exact toy terms and proposed use before judging.

Your evidence record

- Fictional W2: L allows credited classroom display but no public redistribution; M allows adaptation/public redistribution with credit. Image A has L, B has M; public adapted poster can use B with credit. Main case F1/Fern allows credited unchanged public redistribution, not crop; M1/Moss allows crop+public redistribution with credit. Provenance records origin/edits; attribution does not override a stated restriction.

  Unknown terms remain unresolved, including generated assets.

- Reference for this exercise: open this week’s student lesson, “Copyright and Provenance”, at “See how it works” and “Follow a worked example”. Use the original worked values or code named in the question; the later pictorial case is a separate example. Keep this reference beside your workbook while practising.

- For the worked scenario, propose one additional case that could reveal a failure, describe its expected outcome before running it, and explain what would need to remain fixed for a fair comparison.

  Do not reuse W4 as a new final test after receiving feedback.

> **My reasoning and evidence**

MAIN LESSON · SECTION 4

W4 · Check the new public-quotation plan independently

> Keep one first attempt before hints or feedback.

Read and explain independently

Apply only the supplied fictional C and D terms and the stated 40-word proposed quotation. No legal exception or actual source passage is supplied. Explain which condition is unmet and what revision or additional permission would satisfy this classroom policy.

Text C permits internal reading only; D permits public quotation up to 30 words with **attribution**. Proposed public handout reproduces 40 words. Apply the fictional terms.

My independent explanation, trace and limits

Keep a fair record

Attempt this case before feedback. Record any help. Earlier examples below are further practice; a case already practised with feedback cannot establish fresh transfer.

▼ **Earlier wording, alternatives and picture transcripts**

Independent case: Apply a new case independently

MAIN LESSON · SECTION 9

Project · Keep the decision and its evidence

> Add this week's change to your existing project record.

Your evidence record

Attach citations and **provenance** metadata to every Study Buddy learning asset.

The project change and **evidence** I will keep

Write or draw your reasoning and evidence.

MAIN LESSON · SECTION 17

Feedback · Repair and return

> Keep the first attempt, the repair and a changed-case return.

Your evidence record

Evidence	My record
Worked alone / hint / model	
First step I repaired and why	
New case checked later; date and result	
What I can now explain without notes	
One remaining question	

Revisit this idea with your teacher after a delay. Familiarity is different from explaining and using it on a changed case.

MAIN LESSON · SECTION 10

Finish · Judge the evidence in your work

> Point to work that supports your confidence level.

Your evidence record

- I can explain the mechanism.
- I can show evidence.
- I can handle a changed case.
- I can name a limit.

Mark each as not yet, with help or independently, and attach supporting work.

Teacher review _____ Next step _____

Reference bank and extra practice

Choose the reference that helps your next step.

▼ **Reference · Supported W2 record**

REFERENCE · SECTION 2

Reference · Supported W2 record

> This is the same W2 attempt. Keep one response record.

Use this when helpful

Use W2: Trace the worked case for **Copyright** and permitted sources. Record the answer once; the lesson and workbook refer to the same attempt.

Given inputs	Procedure I chose	Middle steps	Result and check

The step I completed without help, and the hint I needed

▼ Extra practice · Repair the explanation

REFERENCE · SECTION 3

Extra practice · Repair the explanation

> Explain the deciding fact before discussing the answer.

Use this when helpful

Use the worked case for **Copyright** and permitted sources. Proposed explanation: “The worked result establishes every future case”. Decide whether this explanation is supported.

Point to the step or supplied fact that decides; explain your repair if needed.

> **My explanation before partner discussion**

▼ Reference · Original learning target

REFERENCE · SECTION 5

Reference · Original learning target

> Use this target to inspect an explanation.

Use this when helpful

A project uses an image found through search. Its author is known but its **licence** is missing. Is naming the author enough to establish reuse permission? Describe a **provenance** record and next action.

▼ **Extra practice · A complete case**

REFERENCE · SECTION 6

Extra practice · A complete case

> Try the question before checking the worked explanation.

Use this when helpful

A slide reuses an online photograph and textbook paragraph.

What **provenance** and reuse checks are needed?

Show your trace, calculation or **evidence**

> **Write or draw your reasoning and evidence.**

▼ **Extra practice · A changed case**

REFERENCE · SECTION 7

Extra practice · A changed case

> Keep this practice separate from the reserved independent attempt.

Use this when helpful

You find an attractive illustration online with no **license** information. What should you record and check before reusing it in a public project?

My practice answer and reason

> **Write or draw your reasoning and evidence.**

Week 29 Test and reflect

▼ **Extra practice · Design a revealing test**

REFERENCE · SECTION 8

Extra practice · Design a revealing test

> Predict before tracing or testing.

Use this when helpful

Create a changed **input**, boundary case or missing-information case. Write the expected answer or safe response before testing.

Test record	My evidence
Changed input or condition	
Expected answer or fallback	
Observed result	
Why the result occurred	

▼ Reference · Original target response space

REFERENCE · SECTION 11

Reference · Original target response space

> This teaching case is practice rather than a fresh assessment.

Use this when helpful

A project uses an image found through search. Its author is known but its **licence** is missing. Is naming the author enough to establish reuse permission? Describe a **provenance** record and next action.

My explanation after practice

Record support used: none, hint or teacher explanation.

▼ Reference · Independent-case response copy

REFERENCE · SECTION 15

Reference · Independent-case response copy

> This duplicates W4. Reuse the same first-attempt record.

Use this when helpful

Text C permits internal reading only; D permits public quotation up to 30 words with **attribution**. Proposed public handout reproduces 40 words. Apply the fictional terms.

My reasoning and evidence

▼ Extra practice · Use the worked picture

REFERENCE · SECTION 18

Extra practice · Use the worked picture

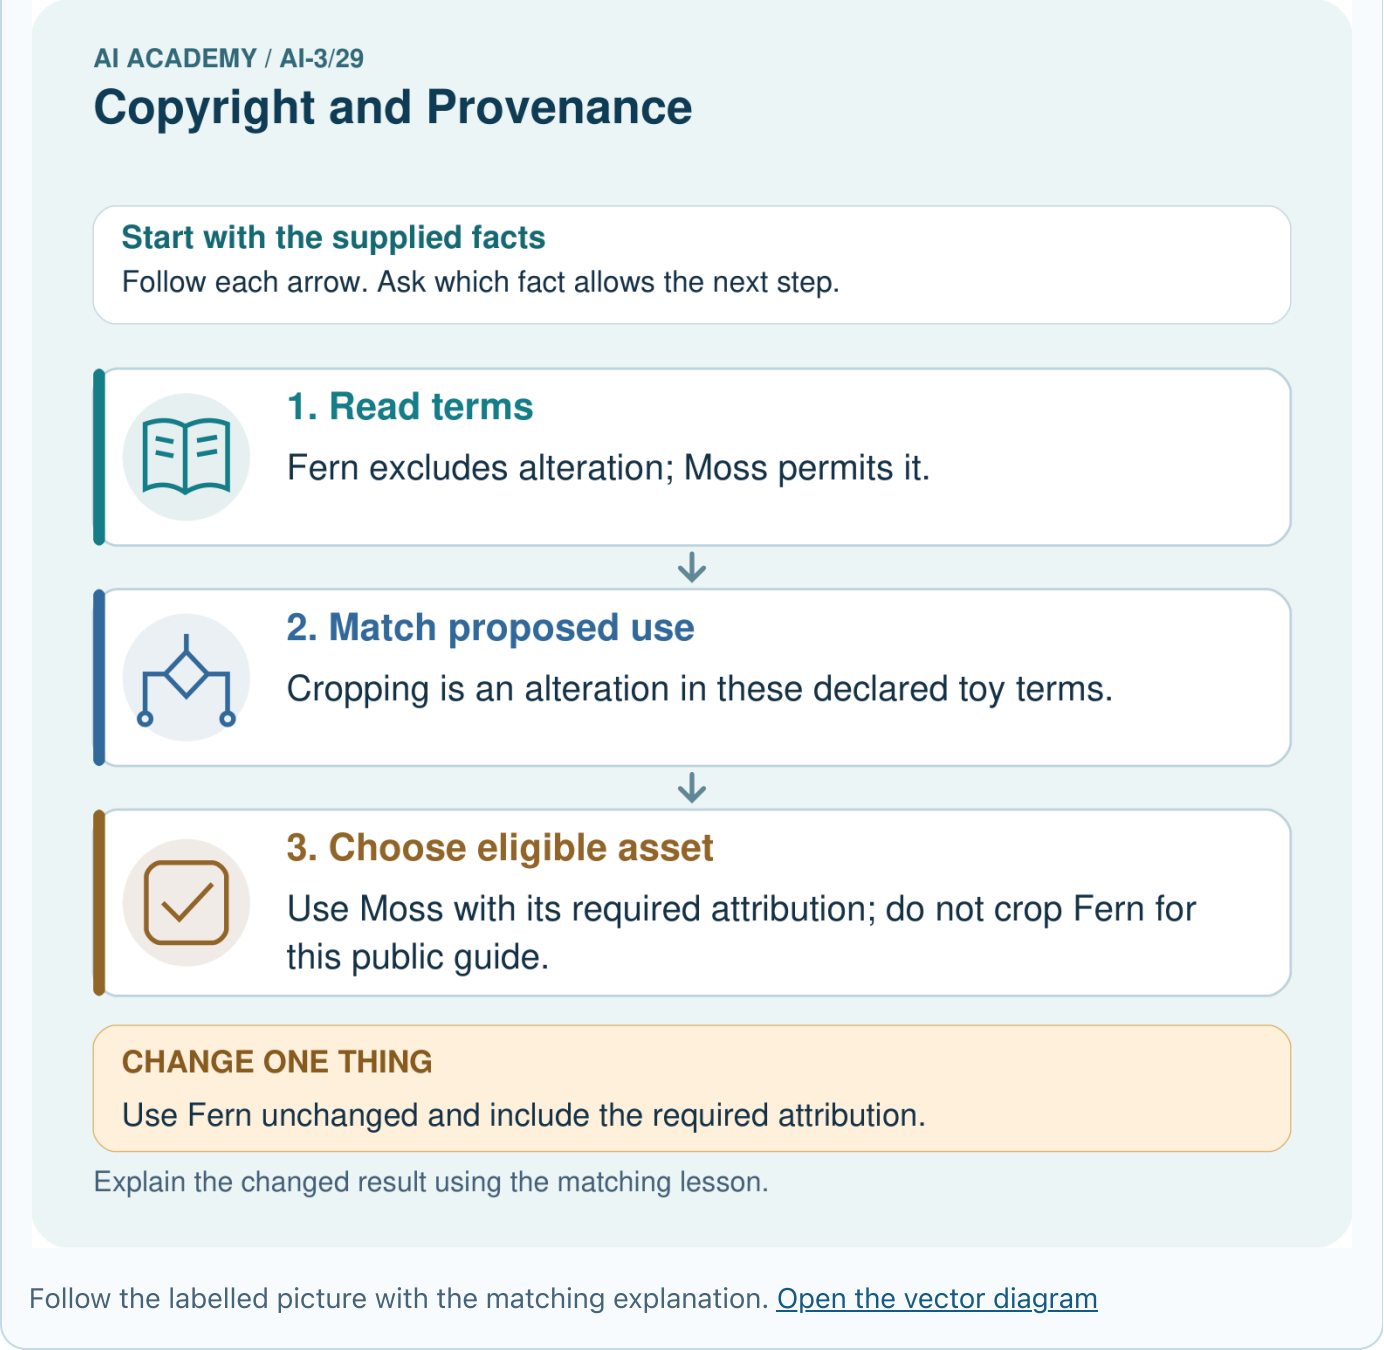

> Keep the explanation and the support you used.

Use this when helpful

Read fictional reuse terms before decorating a public study guide.

Image Fern allows public redistribution with **attribution** but no alteration. Image Moss allows alteration and public redistribution with **attribution**. The plan crops an image.

All **input**s and outcomes in this worked example are invented classroom data; no real model run is claimed.

Follow the labelled picture with the matching explanation. Open the vector diagram

Does acknowledging Fern make a cropped version permitted? Point to the relevant step in the picture, then write the changed result and the rule or **evidence** that supports it.

My picture-based explanation and changed-case prediction

Support used: alone / hint / worked example. This record is practice **evidence**.

Project connection: For your Verified Study Buddy, save the **input**, procedure, observed result and limitation of this check.

Label this worked example as practice; use a different, previously unreviewed case when checking independent understanding.

▼ **Reference · Project portfolio record**

REFERENCE · SECTION 19

Reference · Project portfolio record

> Extend your main project response when helpful.

Use this when helpful

Project: Verified Study Buddy

Current milestone: Prepare the demonstration. Gather reproducible instructions, **evidence**, access checks and remaining limitations.

For your Verified Study Buddy, save the **input**, procedure, observed result and limitation of this check.

Label this worked example as practice; use a different, previously unreviewed case when checking independent understanding.

Evidence to keep	My record
This week's input and deciding step	
Prediction and actual result (or labelled paper trace)	
One change since the previous checkpoint and why	
One error or limit and the next test	

> **Explain what this week adds to your project. Reuse last week's record rather than starting again.**

▼ **Extra practice: pictures, repair and feedback**

REFERENCE · SECTION 20

Extra practice: pictures, repair and feedback

> Attempt each question before opening its explanation. Use one browser or paper copy.

First supported question

- Read fictional reuse terms before decorating a public study guide.
- Which labelled step matches this detail? Use Moss with its required **attribution**; do not crop Fern for this public guide.
- 1. Choose eligible asset

- 2. Read terms
- 3. Match proposed use
- Hint if needed: Read the steps in the pictorial case. Match the supplied detail to the stage that performs or records it.
- After your attempt, compare with the supported explanation: Choose eligible asset Use Moss with its required **attribution**; do not crop Fern for this public guide. Read the picture in order.

  Use Moss with its required **attribution**; do not crop Fern for this public guide. The arrows show which recorded **input** or intermediate result each decision uses.

  Explain the deciding step aloud before checking the changed case; pointing to the final answer alone does not show how it follows.

Practice 1: explain the deciding evidence

> **My selected conclusion, deciding fact and explanation**
>
> ---
>
> ---
>
> ---
>
> ---

▼ **Check the first explanation**

Practice 2: explain the deciding evidence

Changed-case question

- Changed-case practice: Use Fern unchanged and include the required **attribution**. Which conclusion is supported by the supplied facts?
- 1. That use satisfies the stated fictional permission conditions.
- 2. This one example guarantees correct results for every future **input**.

- 3. We can decide the result without examining the changed **input** or the procedure.
- Hint if needed: Use the changed condition and the deciding step in the pictorial trace. The answer must say what follows from those facts.
- After your attempt, compare with the supported explanation: That use satisfies the stated fictional permission conditions. Its public redistribution is permitted when there is no alteration and **attribution** is included.

> **My selected conclusion, deciding fact and explanation**

▼ **Check the changed case**

Repair a missing building block

Repair and save your work

Review Privacy by Design (ai-3/28). Goal: Explain the **mechanism** and terminology of data retention and deletion. Short practice: Which IDs and locations must appear in the deletion **evidence**?

Point to the relevant step in the picture, then write the changed result and the rule or **evidence** that supports it.. Return to this week and explain what you changed.

Review Evaluation Sets (ai-3/26). Goal: Explain the **mechanism** and terminology of system evaluation sets. Short practice: Did the added cases demonstrate better answering?

Point to the relevant step in the picture, then write the changed result and the rule or **evidence** that supports it.. Return to this week and explain what you changed.

Review Block to Python Bridge (ai-3/23). Goal: Translate a short paper calculation into a Python script. Short practice: Trace the changed list and identify where the result differs.

Point to the relevant step in the picture, then write the changed result and the rule or **evidence** that supports it.. Return to this week and explain what you changed.

Use Download completed work in the hosted lesson to export your answers, reflections, practice feedback and code-run **evidence**. Open the HTML copy to read or print it.

Drafts stay in this browser when storage is available; clear drafts on a shared device.

> **What I repaired, the evidence I kept and the next test**

> | | |

▼ **Earlier wording, alternatives and picture transcripts**

Use this supported practice once, in the browser or on paper. Keep the reserved independent assessment for a separate first attempt before teacher feedback.

Keep your completed work

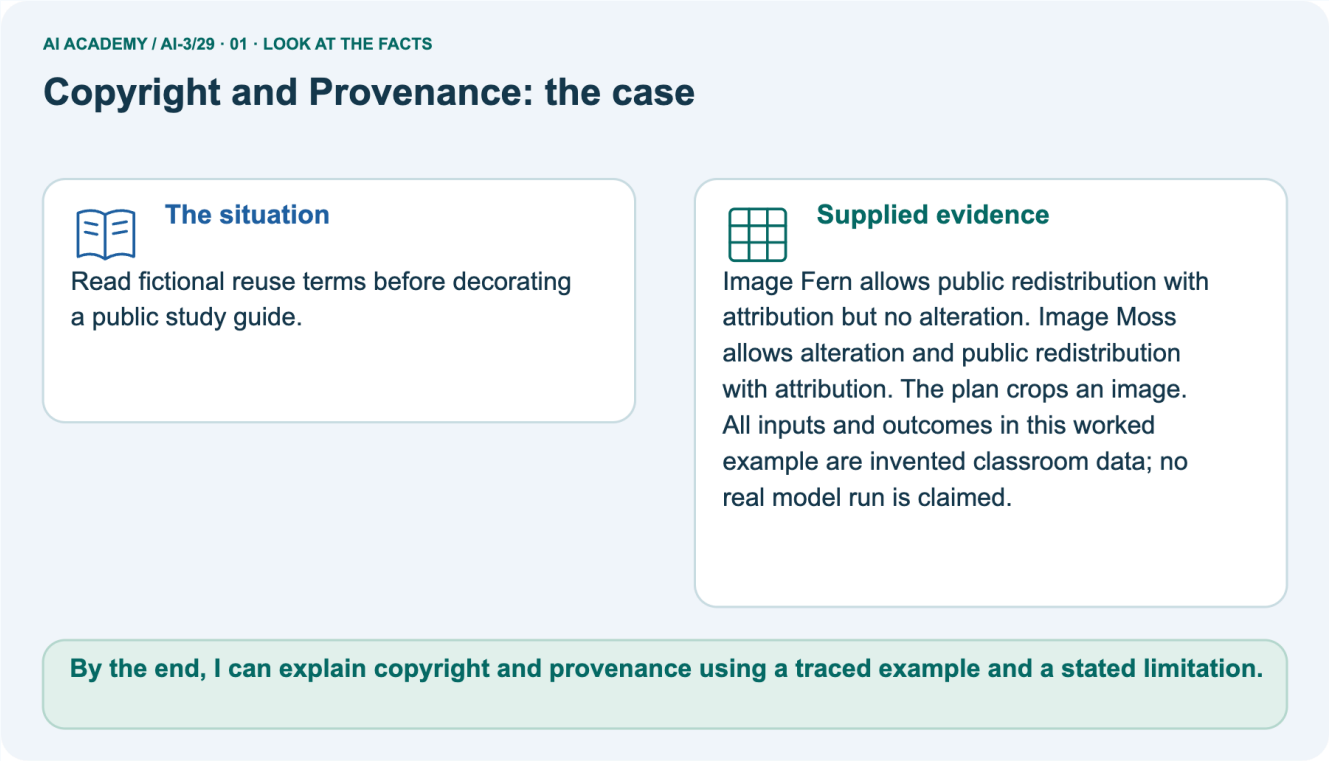

▼ **Reference · Six-picture response sheets**

REFERENCE · SECTION 21

Reference · Six-picture response sheets

> Choose the image that helps rather than repeating all six.

01. Copyright and Provenance: the case

Follow the labelled picture with the matching explanation. Open the vector diagram

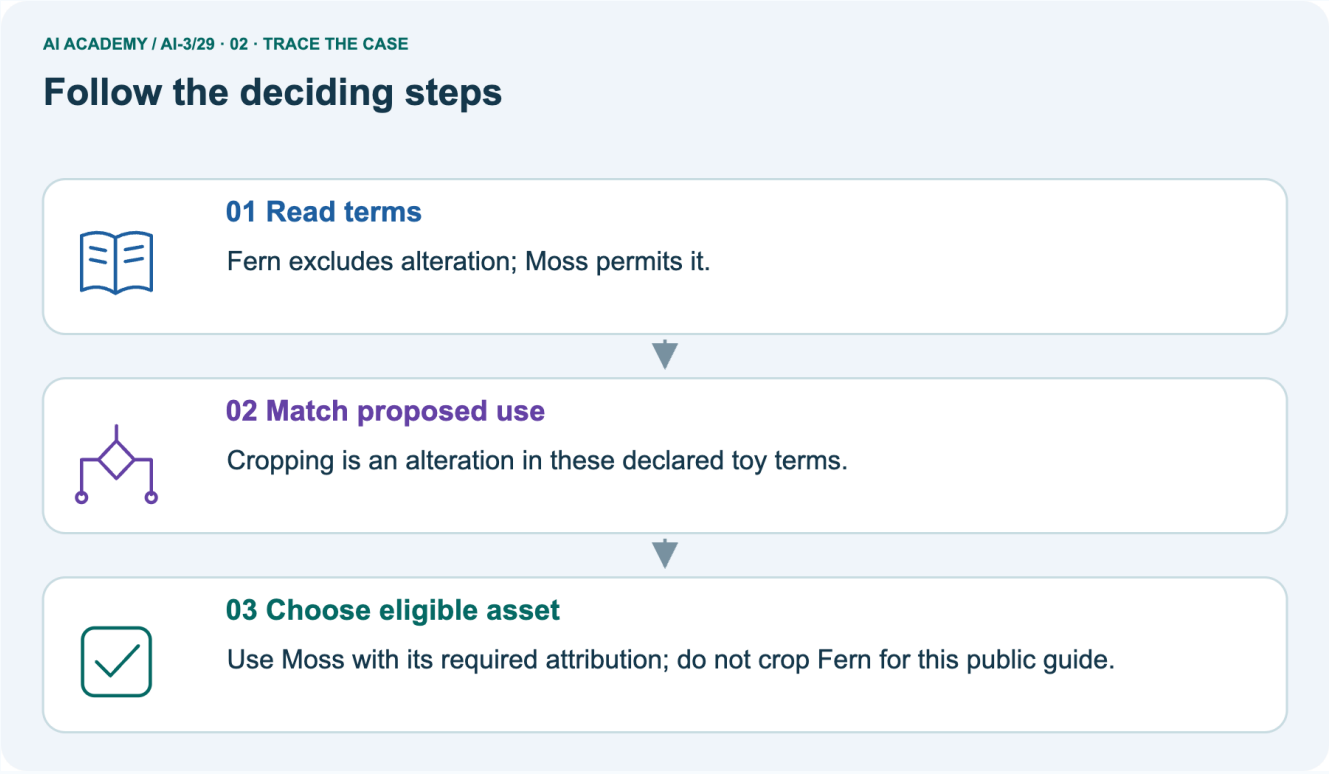

Read fictional reuse terms before decorating a public study guide. Supplied facts: Image Fern allows public redistribution with **attribution** but no alteration.

Image Moss allows alteration and public redistribution with **attribution**. The plan crops an image. All **input**s and outcomes in this worked example are invented classroom data; no real model run is claimed.

Point to the given fact that matters most. Explain why it matters.

My picture explanation, deciding evidence and one limit

02. Follow the deciding steps

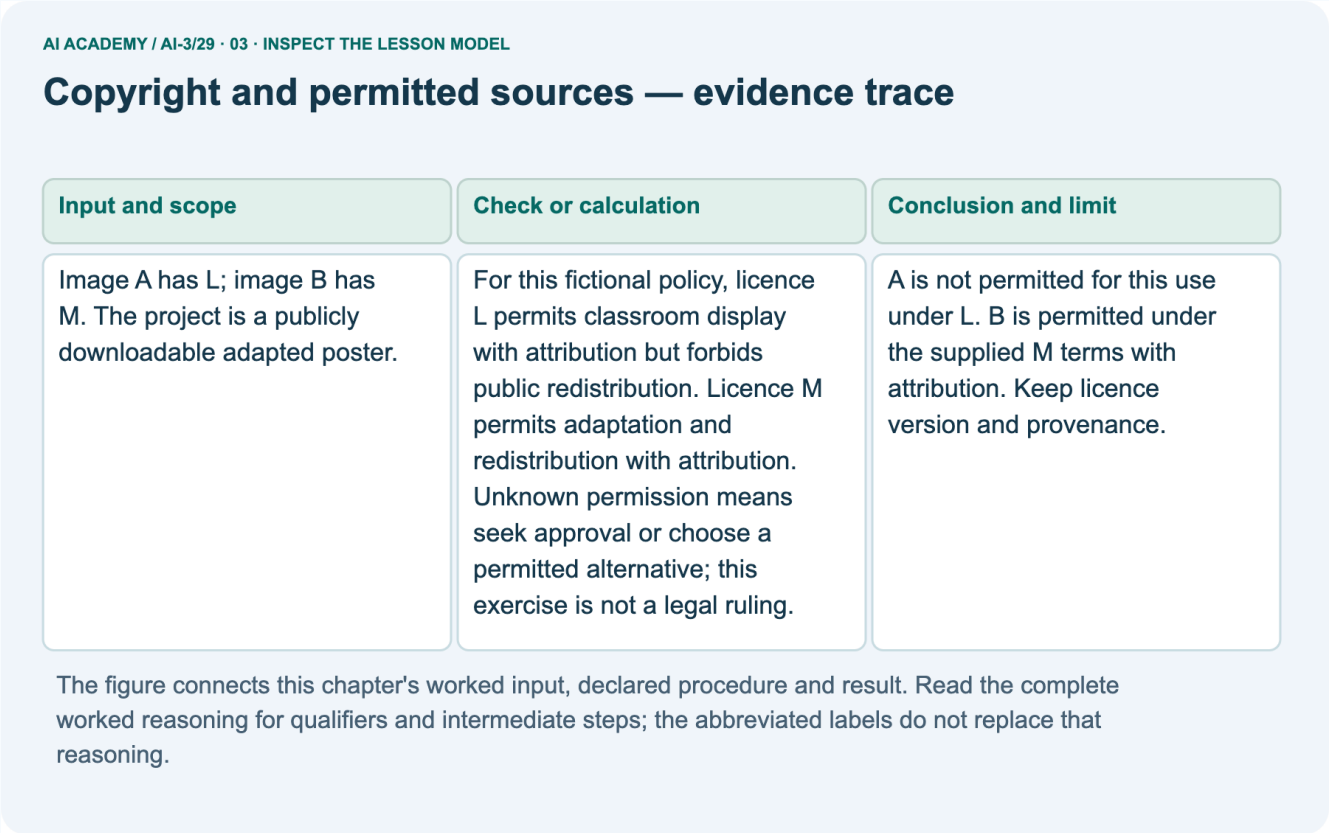

Follow the labelled picture with the matching explanation. Open the vector diagram

Read terms: Fern excludes alteration; Moss permits it. → Match proposed use: Cropping is an alteration in these declared toy terms. → Choose eligible asset: Use Moss with its required **attribution**; do not crop Fern for this public guide.

Point to each numbered stage and explain which recorded **input** it uses.

My picture explanation, deciding evidence and one limit

03. Copyright and permitted sources — evidence trace

Follow the labelled picture with the matching explanation. Open the vector diagram

Copyright and permitted sources — **evidence** trace. Image A has L; image B has M.

The project is a publicly downloadable adapted poster. | For this fictional policy, **licence** L permits classroom display with **attribution** but forbids public redistribution.

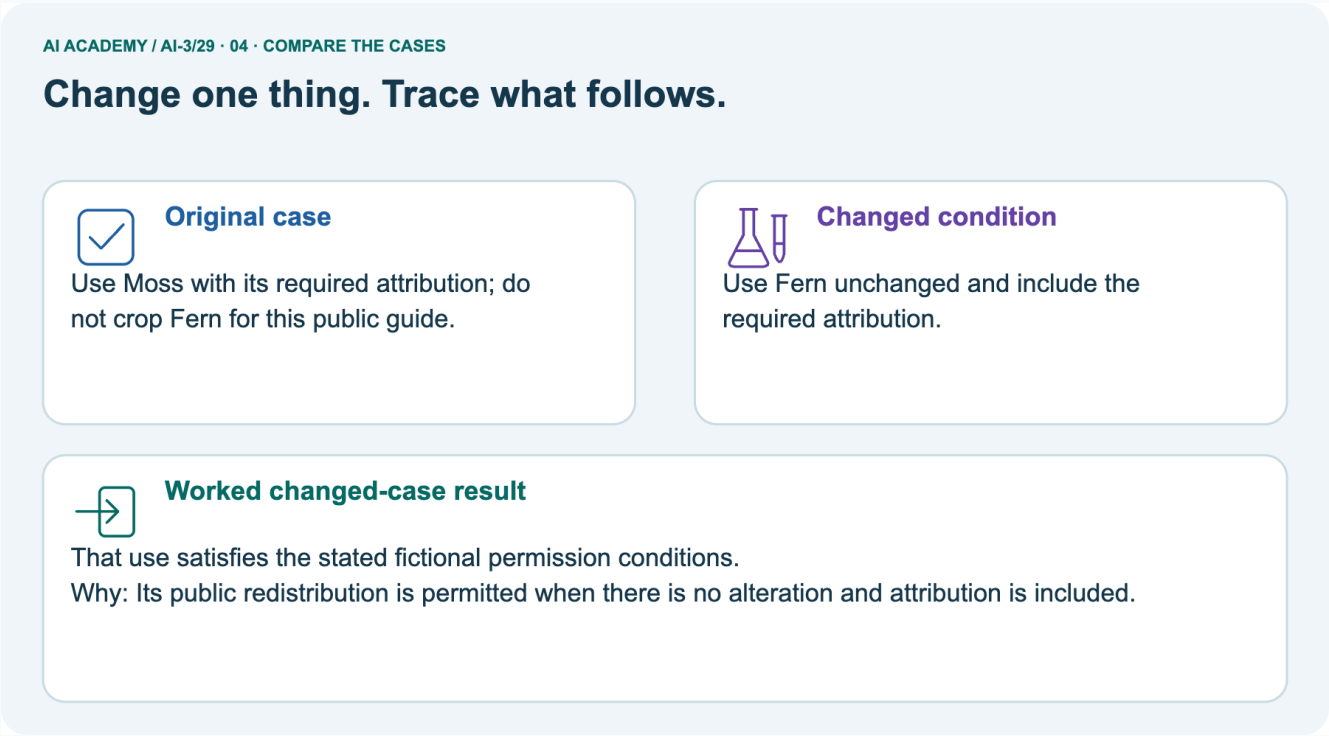

Licence M permits adaptation and redistribution with **attribution**. Unknown permission means seek approval or choose a permitted alternative; this exercise is not a legal ruling. | A is not permitted for this use under L.

B is permitted under the supplied M terms with **attribution**. Keep **licence** version and **provenance**.

Read the labels and values. Explain the relationship the model shows.

My picture explanation, deciding evidence and one limit

04. Change one thing. Trace what follows.

Follow the labelled picture with the matching explanation. Open the vector diagram

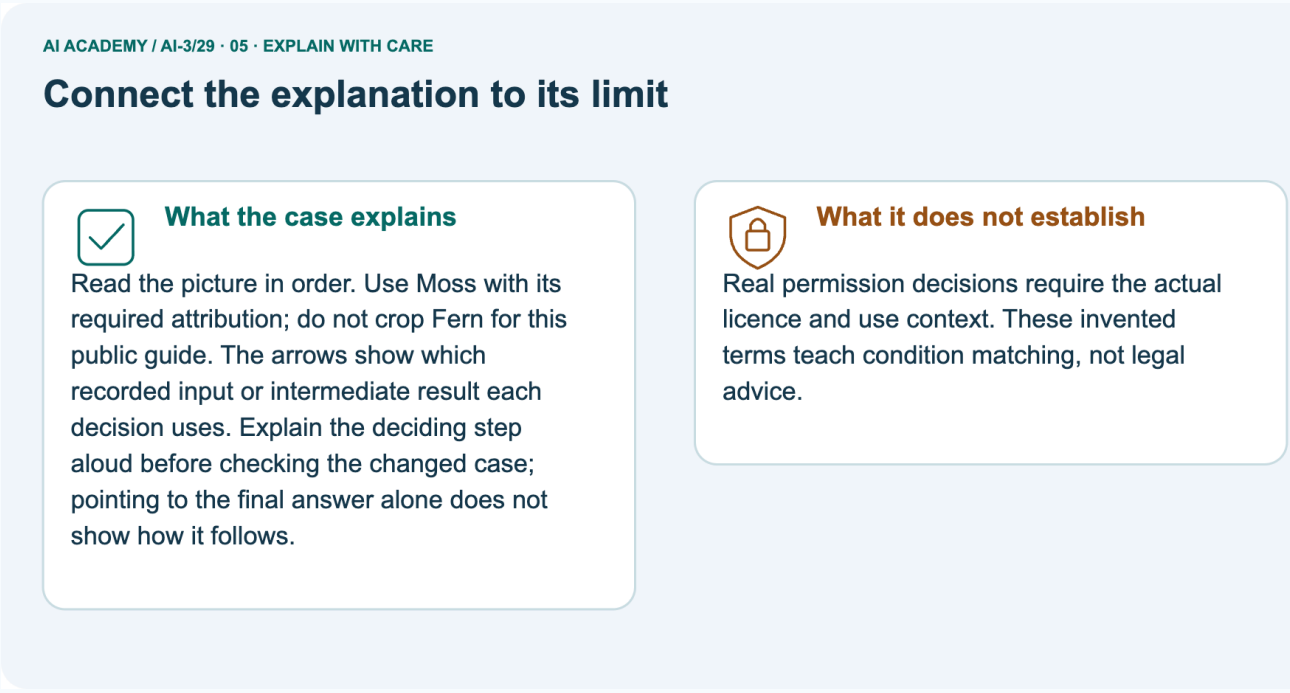

Original case: Use Moss with its required **attribution**; do not crop Fern for this public guide.
Changed condition: Use Fern unchanged and include the required **attribution**.

Expected result: That use satisfies the stated fictional permission conditions. Reason: Its public redistribution is permitted when there is no alteration and **attribution** is included.

Predict before checking the worked changed-case result. Name what changed and what the supplied facts allow you to conclude.

My picture explanation, deciding evidence and one limit

05. Connect the explanation to its limit

Follow the labelled picture with the matching explanation. Open the vector diagram

Read the picture in order. Use Moss with its required **attribution**; do not crop Fern for this public guide. The arrows show which recorded **input** or intermediate result each decision uses.

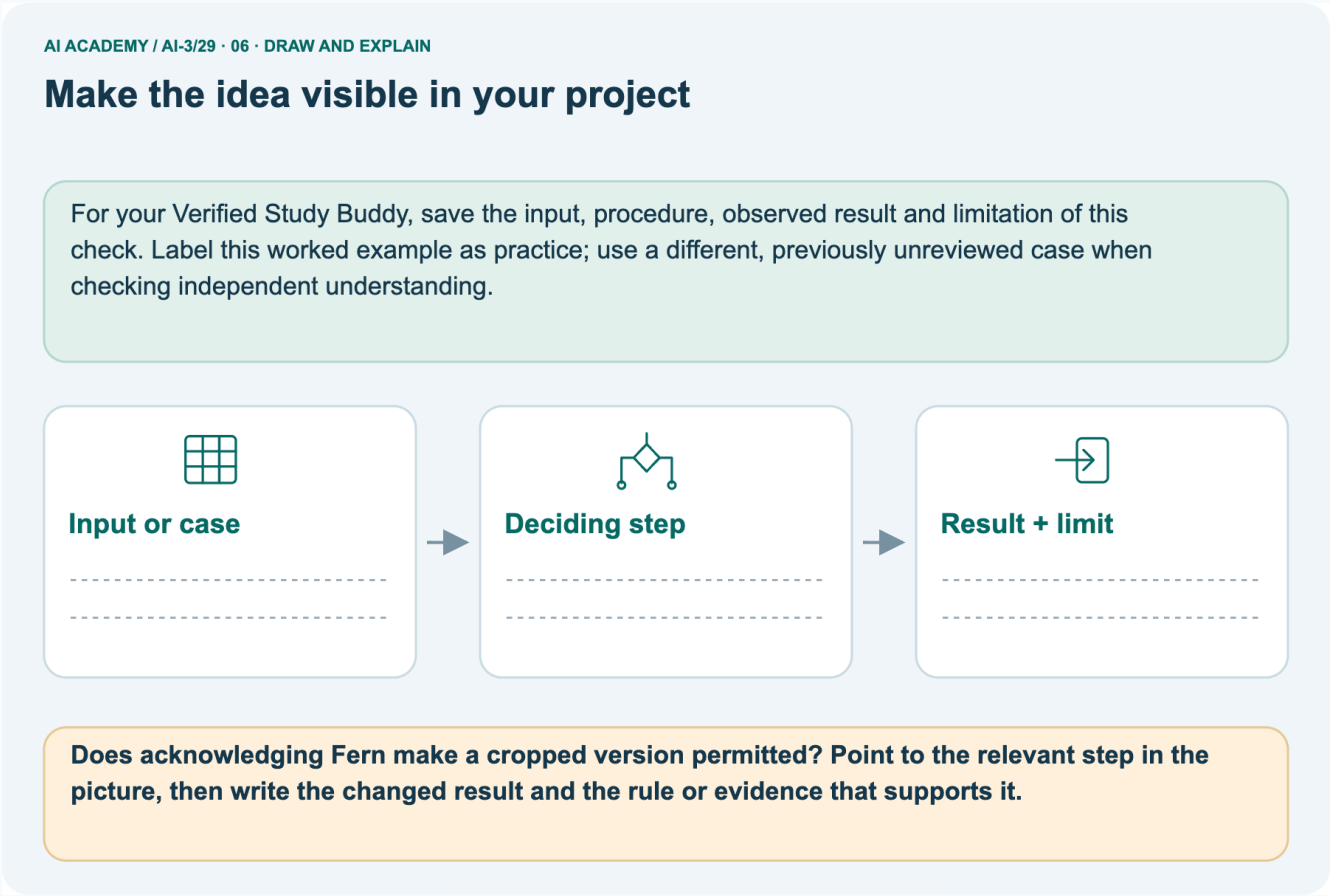

Explain the deciding step aloud before checking the changed case; pointing to the final answer alone does not show how it follows. Limit: Real permission decisions require the actual **licence** and use context.

These invented terms teach condition matching, not legal advice.

Explain the case, then point to a limit on the claim.

My picture explanation, deciding evidence and one limit

06. Make the idea visible in your project

Follow the labelled picture with the matching explanation. Open the vector diagram

For your Verified Study Buddy, save the **input**, procedure, observed result and limitation of this check.

Label this worked example as practice; use a different, previously unreviewed case when checking independent understanding. Draw your **input**, deciding step, result and limit.

Supported question: Does acknowledging Fern make a cropped version permitted? Point to the relevant step in the picture, then write the changed result and the rule or **evidence** that supports it.

Draw your project trace and justify the deciding step using **evidence**.

> **My picture explanation, deciding evidence and one limit**
>
> _____
>
> _____
>
> _____
>
> _____

▼ **Earlier wording, alternatives and picture transcripts**

01. Copyright and Provenance: the case

02. Follow the deciding steps

03. Copyright and permitted sources — evidence trace

04. Change one thing. Trace what follows.

05. Connect the explanation to its limit

06. Make the idea visible in your project

▼ **Optional interactive practice and completed work**

Save or print your responses for your portfolio. Progress and drafts on the hosted website stay in the current browser. Use only fictional or teacher-approved data.
