AI ACADEMY · LEVEL 3 · GRADE 8 · WEEK 15 · STUDENT LESSON

Source Quality

Learn to understand, design, build, test and explain AI systems responsibly.

Project: Verified Study Buddy

THE CONNECTED WEEK

State the claim. Follow the chain. Apply the effective date.

Judge source quality through authority,relevance,currency and origin rather than appearance or upload order.

Keep one habit: Source policy → timeline → four complete source cards → applicability grid → independent version task.

MAIN LESSON · SECTION 1

Which source answers this question at this time?

> Check authority,relevance,effective dates and source origins rather than appearance alone.

Your learning goals

I can explain the **mechanism** and terminology of conflicting and time-sensitive sources.

I can apply the stated procedure to a new case with a traceable result.

I can identify an assumption or limitation and design a revealing follow-up.

Recall evidence and unresolved claims

- Close your notes first. A rough first answer helps us choose the right starting point; it is not a score for your ability.

- Recall Hallucination Failure Types: a missing source does not prove the opposite claim. Before choosing among conflicting records, state which question, time and authority policy apply.

Your end goal

By the end, I can apply source **authority** and effective dates rather than choosing the newest-looking upload.

<details>
<summary>Earlier wording, alternatives and picture transcripts</summary>

Your learning target

Remember before reading

Without opening the old lesson, explain one key idea from Hallucination Failure Types. Give an example and a mistake that the idea helps you avoid.

Without opening the old lesson, explain one key idea from Speech and Audio Systems. Give an example and a mistake that the idea helps you avoid.

Without opening the old lesson, explain one key idea from Prompt Evaluation. Give an example and a mistake that the idea helps you avoid.

After trying, check the relevant lesson or ask your teacher. Change the part of your explanation that the **evidence** shows was wrong.

Week 15: Source Quality

Authority, **relevance**, **currency**, and **independence** determine source usefulness.
</details>

CREATOR MISSION

Rank four sources for a low-risk school research question.

Creator name and date:

> **Write or draw your reasoning and evidence.**

Readiness for the connected explanation

This week’s end goal

MAIN LESSON · SECTION 2

A newer-looking copy is not automatically a new rule

> The question’s date and the record’s effective date matter.

The time-sensitive source problem

Changing facts require a stated time and source-version policy. Current-looking records can conflict without enough **evidence** to choose between them.

Use declared fictional authority without inventing missing policy

Begin by writing the question the procedure is intended to answer. Identify the information already supplied, the information it will produce and the information still missing.

These are constructed classroom examples; they do not require live accounts, private records or an external service. Do not treat a plausible explanation as a measured outcome.

▼ **Earlier wording, alternatives and picture transcripts**

PICTURE STORY

Notice → Predict → Explain

Begin with visible **evidence**. Do not explain more than the picture and information support.

MYSTERY

The learners must use source quality to solve a problem. What information do they have? What decision or calculation do they make? What would count as **evidence** that it worked?

Three **observation**s (what you can point to):

> **Write or draw your reasoning and evidence.**

My **prediction** and the clue supporting it:

> **Write or draw your reasoning and evidence.**

A closer explanation

MAIN LESSON · SECTION 3

Read the declared version relationship before selecting a value

> Preserve original and amendment together.

The amendment rule

For this toy task a signed amendment supersedes the referenced original from its **effective time**. Keep both records. A newer timestamp alone has no **authority** unless the policy grants it.

Complete the inclusive effective-day contract

Classroom policy: the supplied signed amendment supersedes its referenced original from the start of the stated effective day, including that day. An old record reuploaded later does not revoke the amendment. Signed status and issuer authority are givens for this exercise; no real signature or document authenticity is verified. Keep issued/uploaded dates, effective dates and version links as separate fields.

Keep the query's temporal scope

Before applying the procedure, write its units, denominator or decision boundary where relevant. A partner should be able to repeat each step using the same **input**s.

If a required **input** is absent or violates the stated contract, record that condition explicitly instead of quietly replacing it with a convenient value.

Explain the deciding evidence

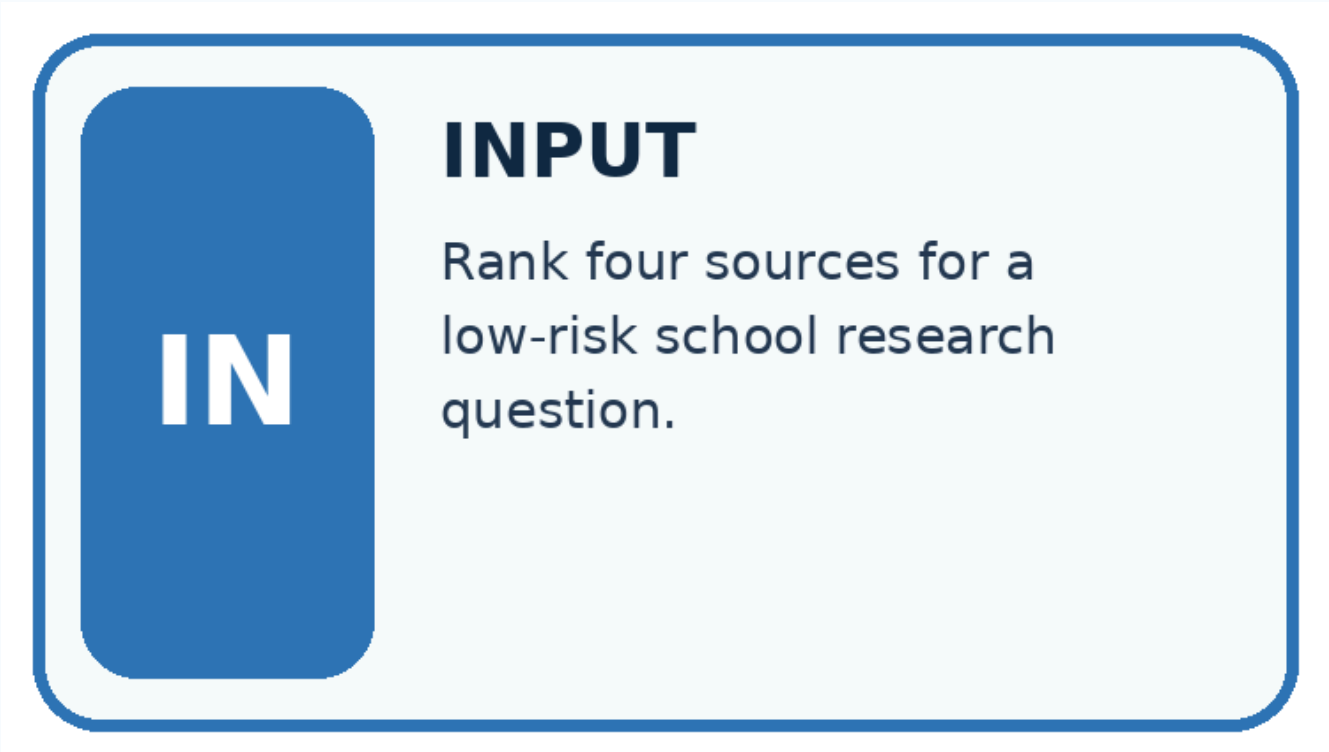

- Point to the **input**, the deciding step and the result in this week's visual. Explain the same step in ordinary words. A picture helps when you can say what each part represents.

<details>
<summary>Earlier wording, alternatives and picture transcripts</summary>

VISUAL **MECHANISM**

Input → **Process** → **Output**

Trace the information. At each stage, ask what changed and how you could test it.

↓
</details>

SYSTEM
Authority, relevance, currency, and independence determine source usefulness.

↓

OUT
EVIDENCE
Rank four sources for a low-risk school research question.

Which stage could fail even when the other two are correct? Explain:

Write or draw your reasoning and evidence.

A closer explanation

Conflicting and time-sensitive sources — evidence trace

INPUT AND SCOPE	CHECK OR CALCULATION	CONCLUSION AND LIMIT
Notice N says room A from Monday. Signed amendment M references N and changes to B effective Wednesday. Query asks Tuesday, then Thursday.	For this toy task a signed amendment supersedes the referenced original from its effective time. Keep both records. A newer timestamp alone has no authority unless the policy grants it.	Tuesday uses A; Thursday uses B. The amendment effective time, not merely upload order, determines the change.

The figure connects this chapter's worked input, declared procedure and result. Read the complete worked reasoning for qualifiers and intermediate steps; the abbreviated labels do not replace that reasoning.

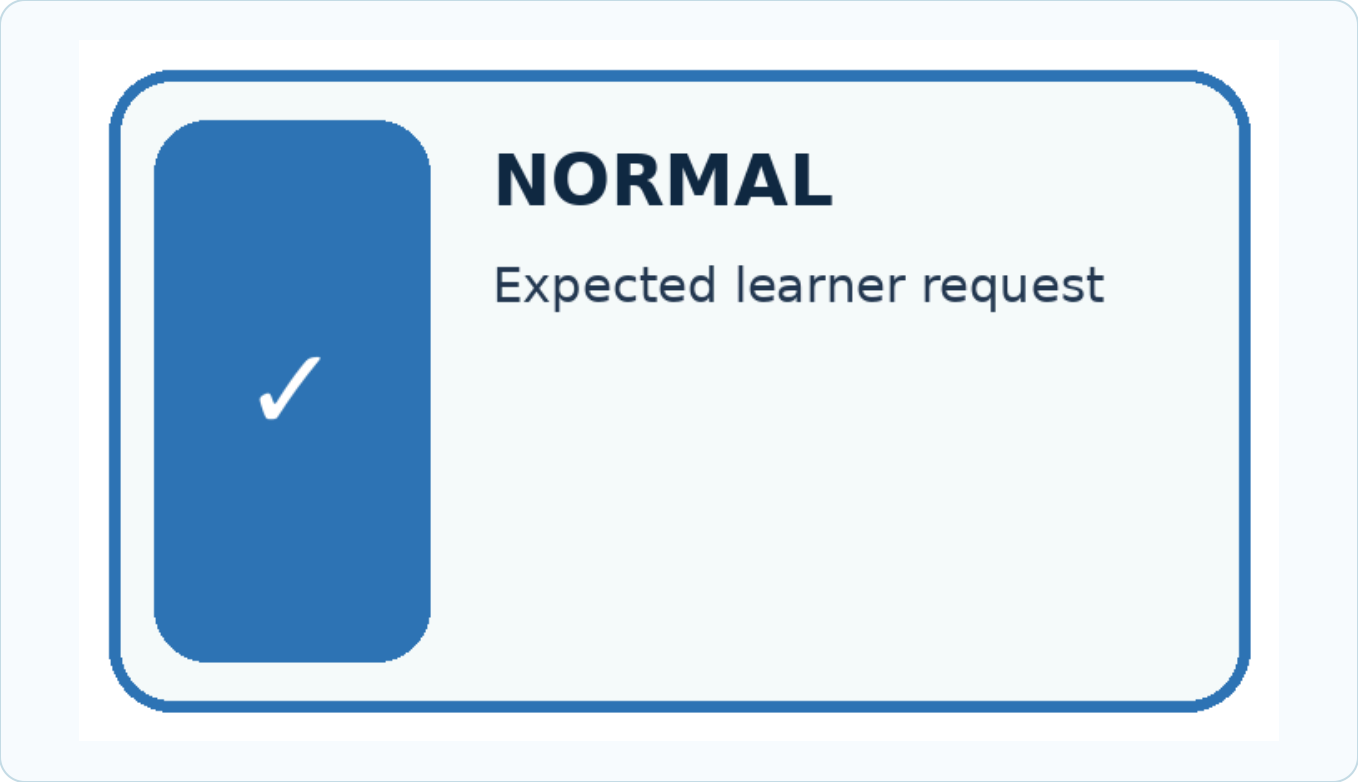

Connect the picture and the explanation

MAIN LESSON · SECTION 4

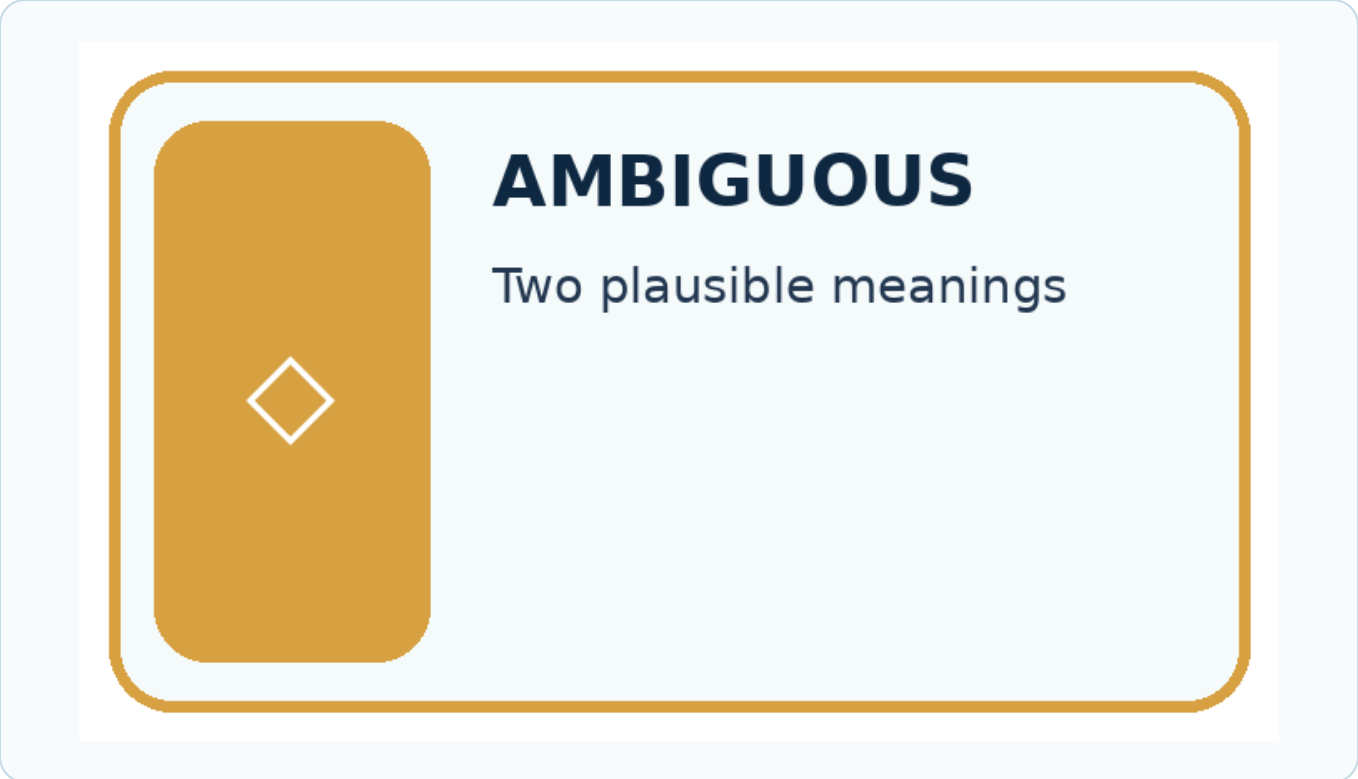

Compare relevance and authority with upload recency

A current official record can concern a different question.

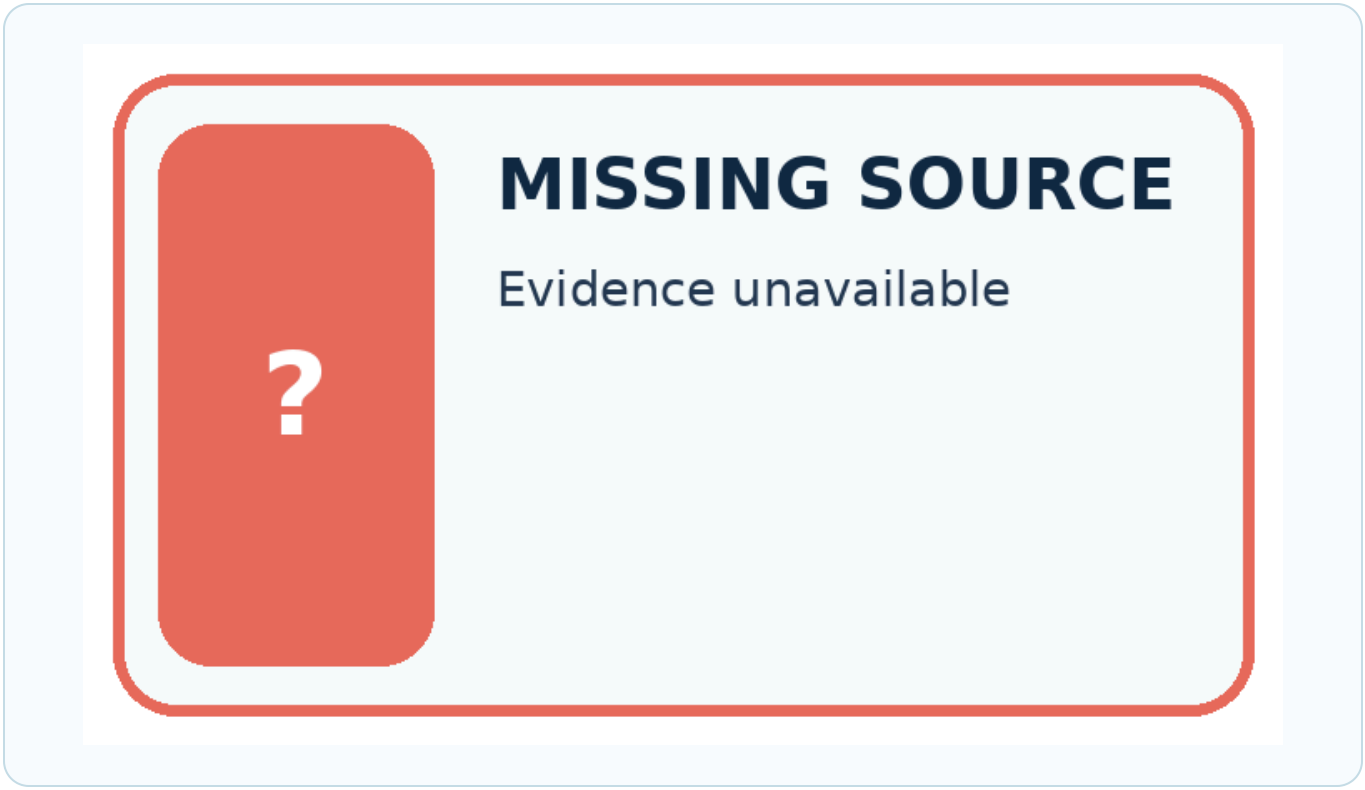

Four pictures with a purpose

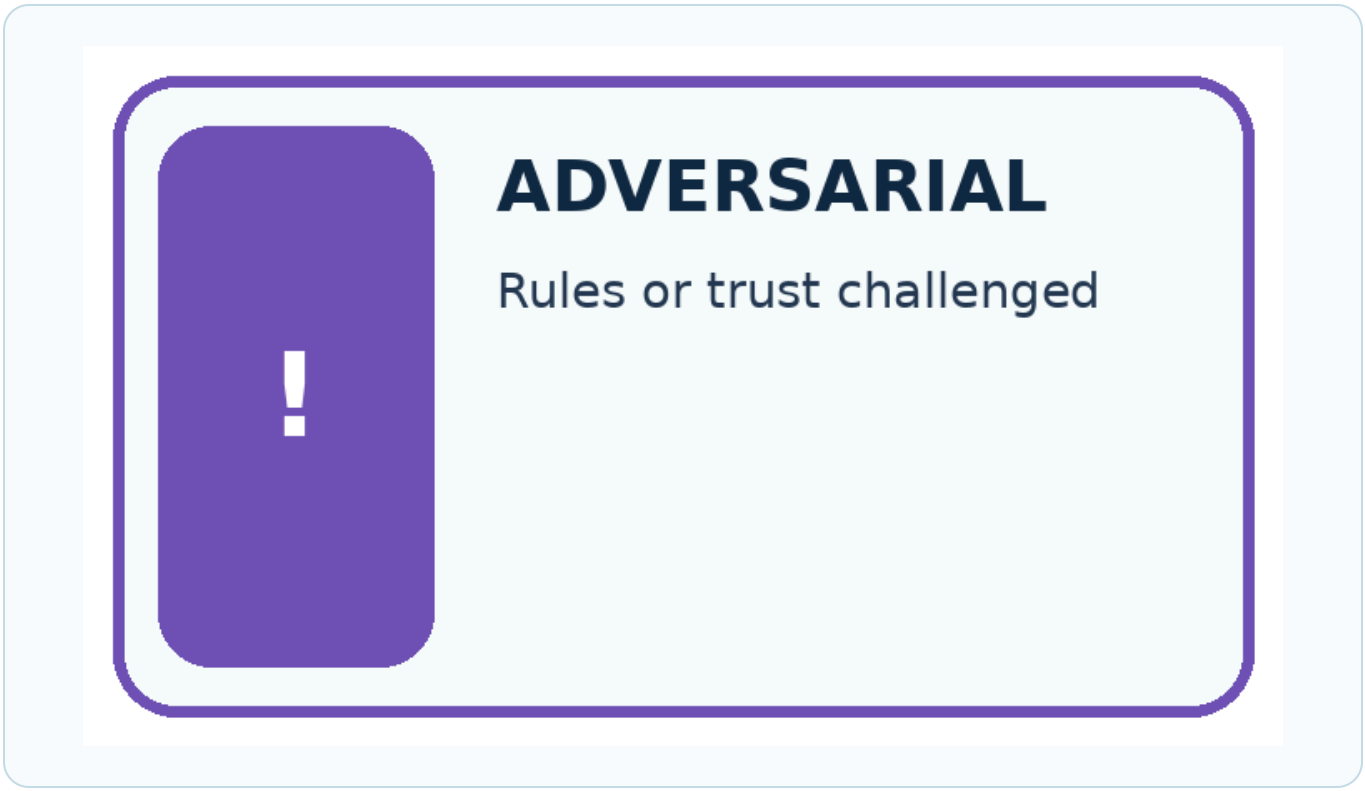

Normal case: predict the result and deciding evidence.

Boundary case: identify the exact limit.

Missing information: name what must be clarified.

Transfer case: explain which procedure still applies.

Choose a revealing case

- Which case is most likely to reveal a hidden assumption? Why?

> **Write or draw your reasoning and evidence.**

Predict the supplied changed case

- Change: A signed amendment C explicitly revokes B effective day 12 and restores Hall 1.

▼ Check after predicting

Prediction: Day 9 stays Hall 3; day 13 becomes Hall 1.

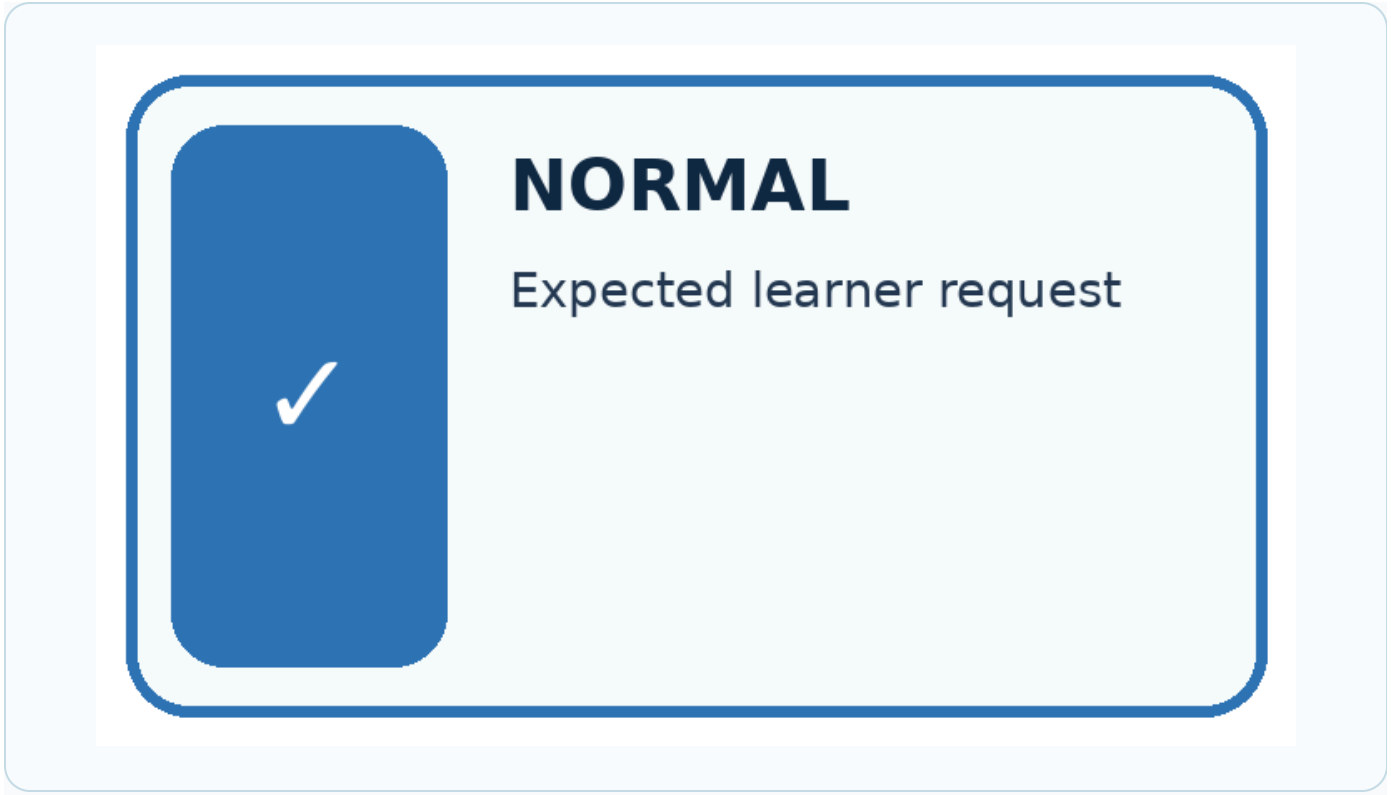

Reason: The new authoritative change applies from its stated effective date, not retroactively.

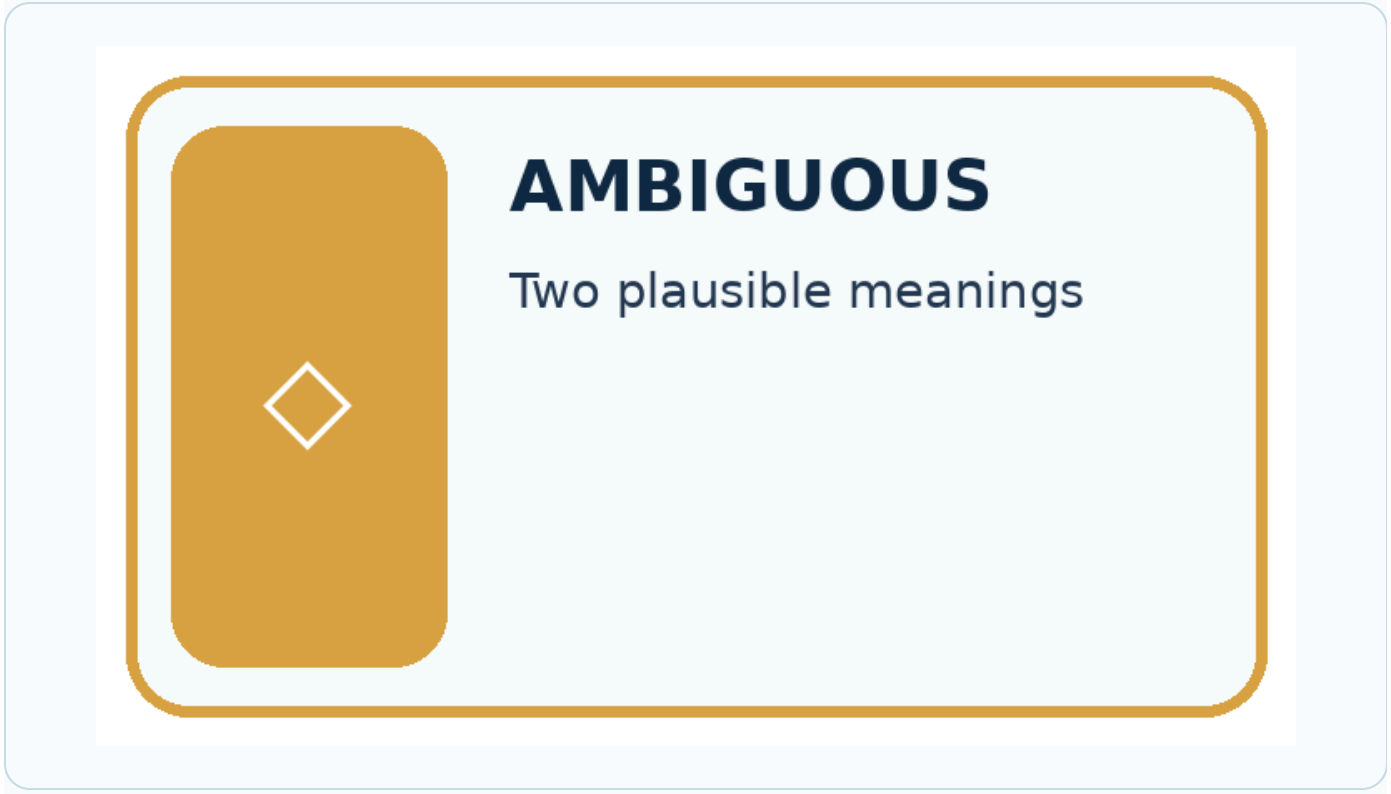

▼ Earlier wording, alternatives and picture transcripts

CASE GALLERY

Four Tests, Four Kinds of **Evidence**

A system is not understood until it survives more than one comfortable example.

NORMAL CASE: predict and name **evidence**. BOUNDARY CASE: predict and name **evidence**.

MISSING INFORMATION: predict and name **evidence**. TRANSFER CASE: predict and name **evidence**.

Change one thing in the pictured case

MAIN LESSON · SECTION 6

Trace a separate numbered-day authority chain

> Keep the weekday N/M review separate from the A/B/C timeline.

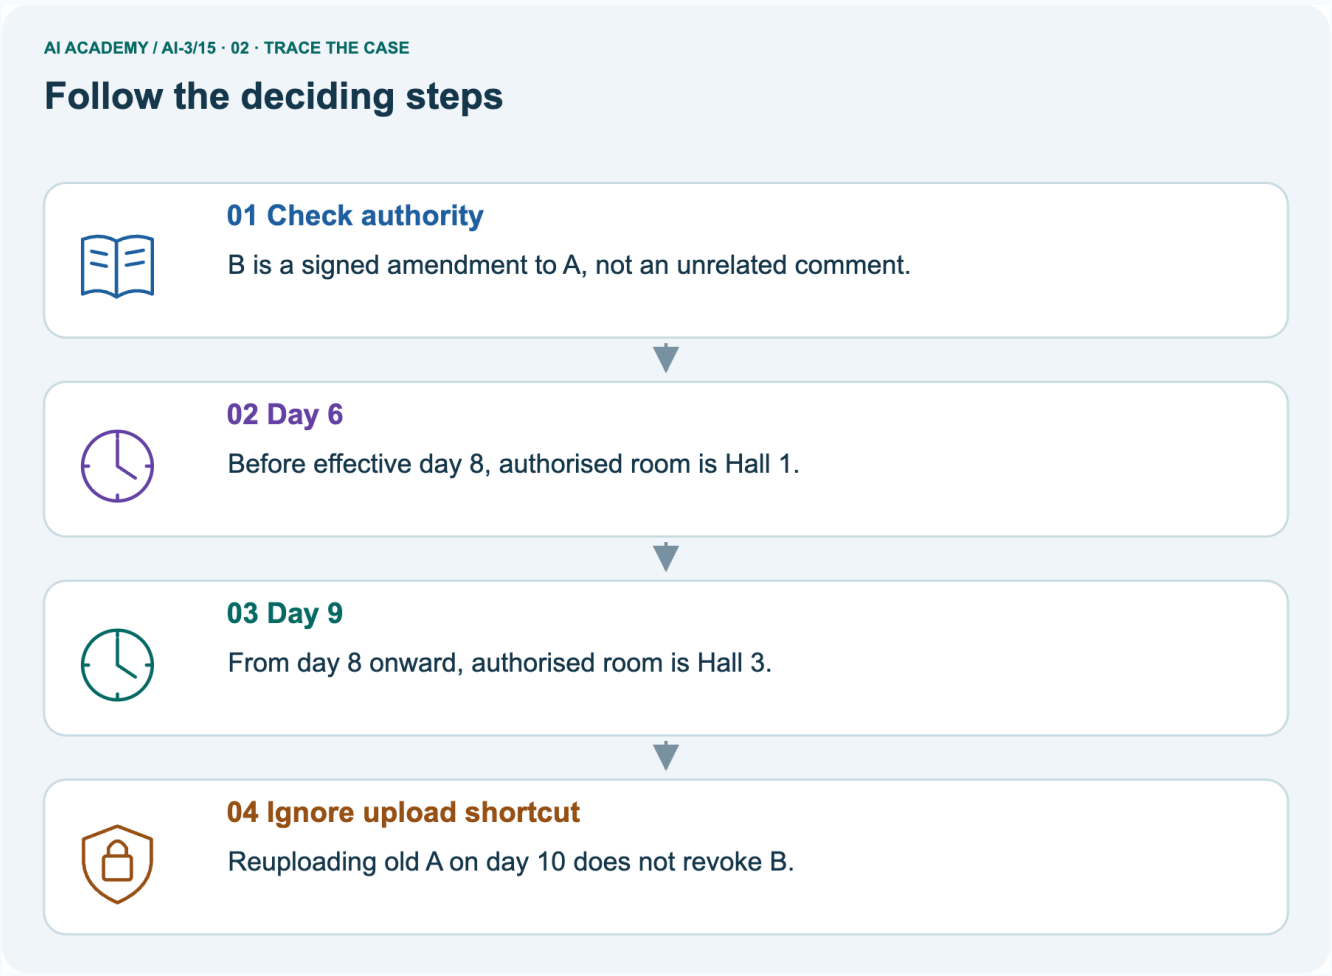

Read A,B and the later old-copy upload

A fictional Study Buddy answers which room a club is authorised to use.

Signed notice A: Hall 1 from day 1. Signed amendment B references A and changes to Hall 3 effective day 8.

An old copy of A is reuploaded on day 10. B remains the authoritative amendment. Queries concern day 6 and day 9.

Trace authority and the query dates

Follow the labelled picture with the matching explanation. Open the vector diagram

Read the picture one step at a time

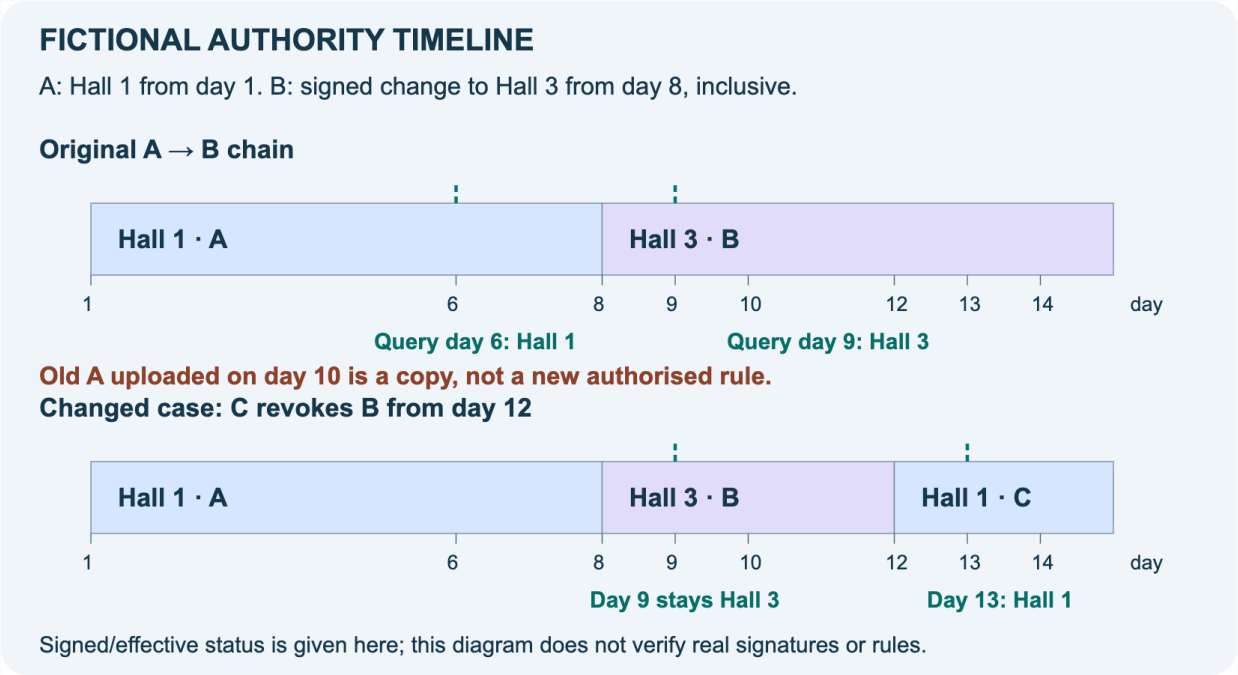

STEP	WHAT HAPPENS AND WHY
1. Check authority	B is a signed amendment to A, not an unrelated comment.
2. Day 6	Before effective day 8, authorised room is Hall 1.
3. Day 9	From day 8 onward, authorised room is Hall 3.
4. Ignore upload shortcut	Reuploading old A on day 10 does not revoke B.

Match each pictured step to the supplied facts. This is a worked teaching case, not an independent assessment.

A source's upload time and the time its rule takes effect answer different questions. Preserve version relationships and the query's intended date. The current authoritative chain gives a consistent answer to both queries.

A later filename or timestamp alone cannot establish that an old record supersedes a signed amendment.

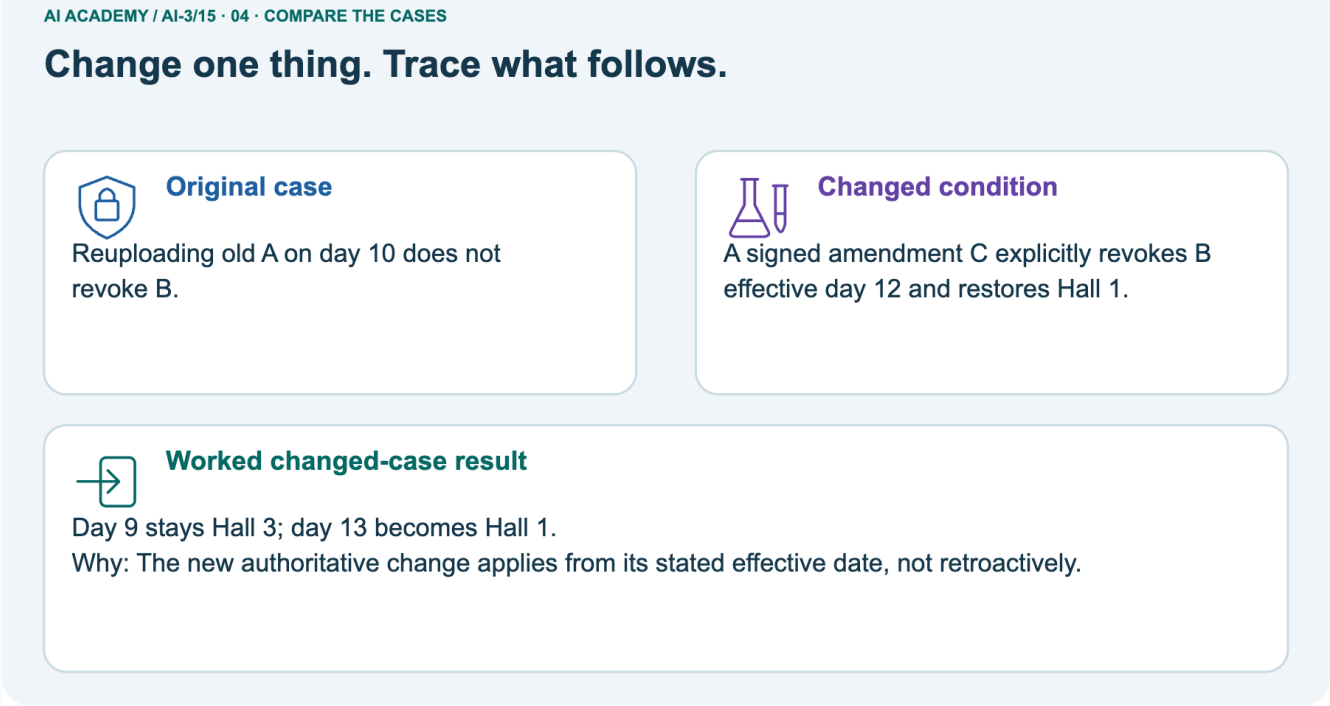

Inspect the effective-date timeline

Predict adding the explicit revocation C

- Change one thing: A signed amendment C explicitly revokes B effective day 12 and restores Hall 1. Predict the result before checking the explanation. What remains the same?

▼ Check after predicting

Follow the labelled picture with the matching explanation. Open the vector diagram

State the fictional-authority limit

- **Authority** is declared in this fictional case; real conflicting sources may require the responsible owner's review.
- Read the labelled picture: Which source fields must be checked before answering day 9?

▼ Review · Earlier weekday N/M case

Notice N says room A from Monday. Signed amendment M references N and changes to B effective Wednesday. Query asks Tuesday, then Thursday.

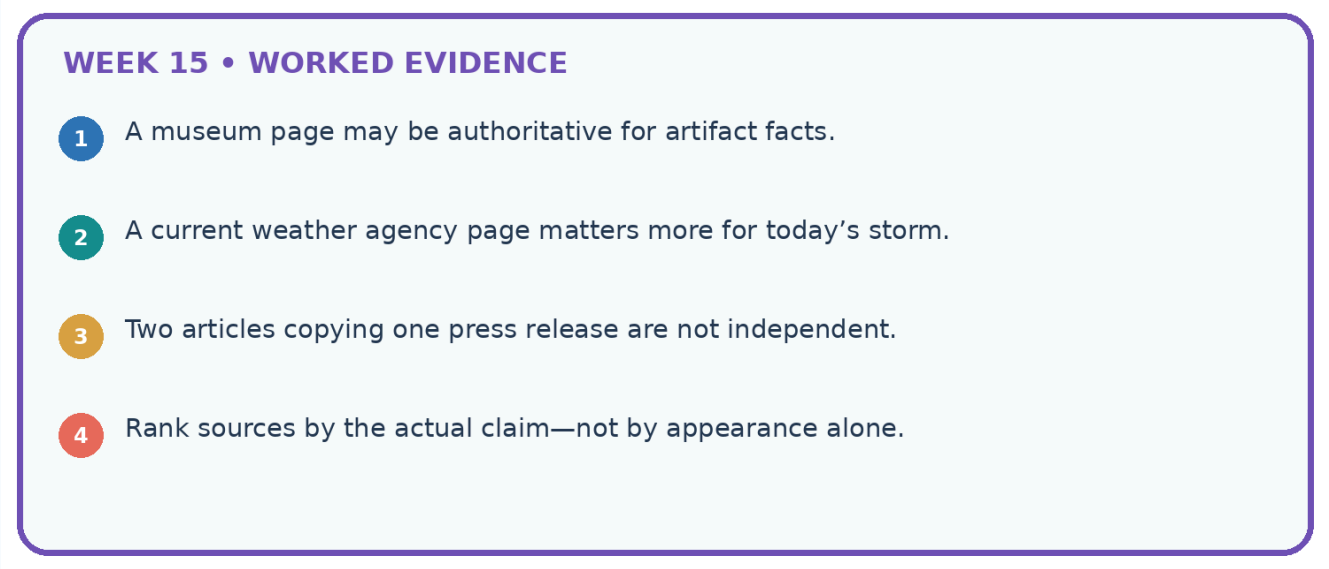

Tuesday uses A; Thursday uses B. The amendment **effective time**, not merely upload order, determines the change.

▼ Earlier wording, alternatives and picture transcripts

WORKED **EVIDENCE**

Reason Step by Step

Predict first. Then check each step. A correct answer without visible reasoning is incomplete **evidence**.

1. A museum page may be authoritative for artifact facts.

2. A current weather agency page matters more for today’s storm.

3. Two articles copying one press release are not independent.

4. Rank sources by the actual claim—not by appearance alone.

Recalculate, retrace, or restate the reasoning in your own representation:

Write or draw your reasoning and evidence.

CHECK Did the **evidence** answer the exact question? Did the total, path, or source record stay consistent?

A closer explanation

Compare the intermediate **evidence** with the final statement. Explain why each number or decision follows from the stated **input**s.

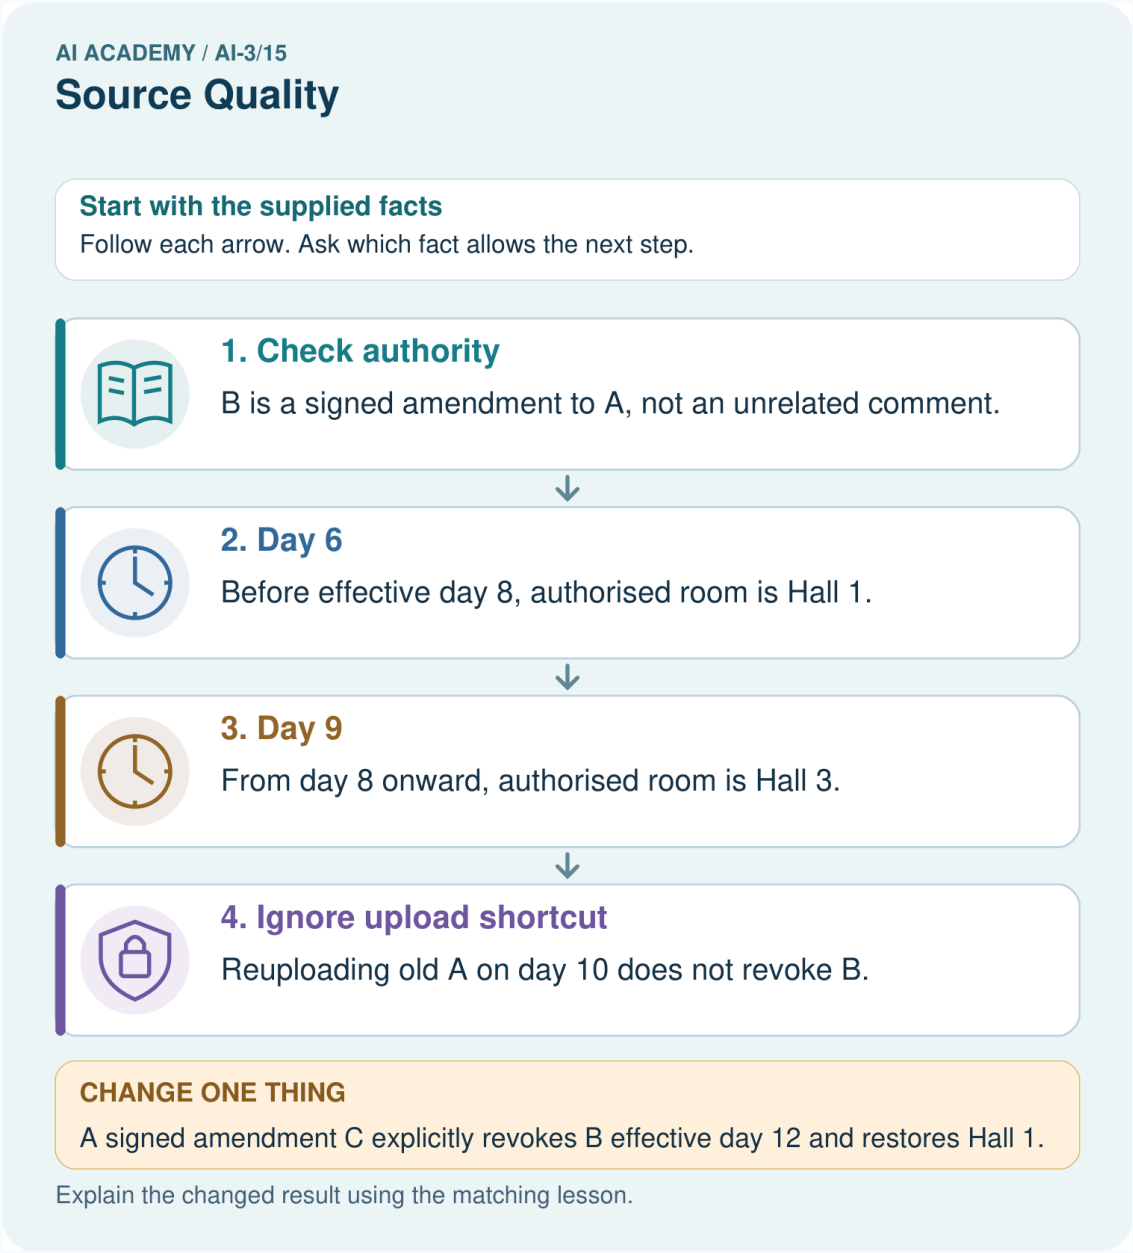

The conclusion belongs to this scenario and procedure; changing the **input**s, evaluation population or **authority** can change what it establishes. Retain the raw record so a later revision can be compared honestly.

Learn from the worked case

Cover the result before checking it. Say what is given, choose the procedure, and follow one step at a time. Then uncover the result and explain your first mismatch. Ask why a step is allowed, not only what number it produces.

A pictorial worked case: Source Quality

The facts we will use

Follow the labelled picture with the matching explanation. Open the vector diagram

Why this result follows

What this example does not establish

MAIN LESSON · SECTION 7

Find the field used as a shortcut for authority

> A timestamp answers when a file appeared,not necessarily when a rule applies.

Repair the latest-upload argument

Claim to repair: Old A was uploaded on day10,so it must control the day9 answer. Uploading a copy does not create an authorised supersession. In the stated chain,B changes the assignment from day8;day9 therefore uses B. A later signed C would apply only from its own effective day. Do not invent a signature,issuer rule or retroactive effect when the sources do not supply one.

Design a revealing version check

> **Exit: propose one revealing change to the worked scenario. State the expected outcome and the evidence that would make you revise your explanation.**

▼ **Earlier wording, alternatives and picture transcripts**

ERROR DETECTIVE

Compare → Diagnose → Repair

Do not patch the answer. Find the earliest unsupported assumption, wrong step, or weak **evidence**.

!

COMPARE • DIAGNOSE

Weak idea: The first search result is the best source. Strong move: inspect the claim, source, stage, schema, or test evidence; repair one cause; rerun.

Evidence record	Expected	Actual	Likely cause / next test
normal case	works		
boundary case	stated rule		
missing input	safe response		
fresh transfer	generalizes		

Repair one cause. Why is this repair better than changing several things?

> **Write or draw your reasoning and evidence.**

A closer explanation

Complete the supported workbook tasks before attempting W4 independently. Record any hints or help used. After feedback, use the teacher's fresh retry rather than copying the earlier answer.

For a project, select a relevant new case, predict the outcome from the declared rule and preserve the result alongside any revision.

MAIN LESSON · SECTION 8

Practise the weekday source chain with less help

> Use the effective-time rule for the current record set.

The unresolved-policy boundary

An unspecified **authority** or effective-time rule leaves a conflict unresolved; do not invent precedence.

Complete N/M weekday W2

Practise with less help: Trace the worked case

Use workbook W2 for the connected example “Conflicting and time-sensitive sources”. First fill the **input** and rule boxes. Try the middle steps before asking for a hint. After a hint, try the next step yourself.

Plan	Do	Check
What is given? Which rule or procedure applies?	Record each intermediate step.	Does the result follow? What remains unknown?

Repair an all-future-cases claim

- Use the worked case for Conflicting and time-sensitive sources. Proposed explanation: “The worked result establishes every future case”. Decide whether this explanation is supported.

  Point to the step or supplied fact that decides; explain your repair if needed.

- Answer on your own before discussion. If you are unsure, say which step you need help with.

Check your reasoning

Explain the numbered-day fields

- Which source fields must be checked before answering day 9?

Explain the picture

My explanation using a pictured step and the given facts

Keep the capacity-amendment task independent

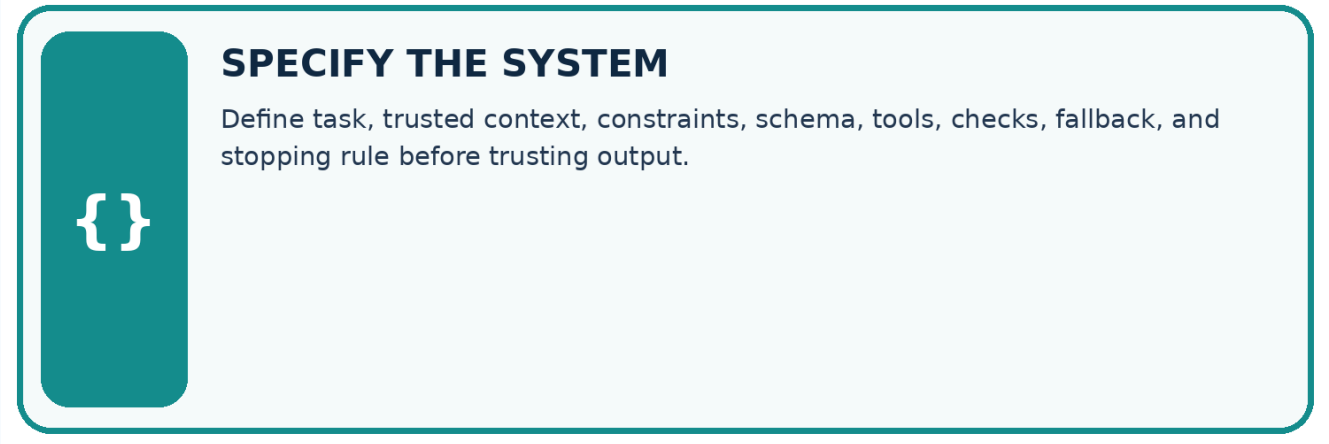

This is supported practice. Keep the separately named independent case for an attempt before feedback.

▼ **Earlier wording, alternatives and picture transcripts**

LOGIC STUDIO

Specify Before You Run

Prompts, schemas, retrieval, tool calls, and code are inspectable parts of one AI product.

SET task, audience, constraints, **output**_schema LOAD approved_context or retrieval_result CALL model or allowed_tool VALIDATE fields, claims, citations, and safety IF **evidence** missing: ask, retrieve, or abstain RETURN useful **output** + source trail + limitations

Trace one **input**. Which line changes the state or chooses a path?

> **Write or draw your reasoning and evidence.**

A closer explanation

A useful check asks what would make the reasoning fail. Distinguish a failure to execute the declared procedure from a weakness in the procedure itself.

The first may require a correction; the second requires an explicitly revised method and new **evidence**. Preserve unsuccessful cases so an improved result cannot hide the original problem.

> **Guided: restate the worked result, then name the assumption or limitation that prevents a broader conclusion.**

Explain your trace to a partner. Your partner points to one step to check. Swap roles on the next case. Each person writes their own explanation.

MAIN LESSON · SECTION 9

Rank four complete sources for one exact claim

> All issuer,time,origin and relevance facts are supplied.

The four source cards

Source	Complete fictional content and metadata	Origin or scope
A	Club owner’s signed notice: club C7uses Hall 1 from day1. Issued day1.	Original assignment authority
B	Same owner’s signed amendment: references A;club C7uses Hall 3 from day8. Issued day7. No later revocation in this base case.	Amendment in the same authority chain
C	Unsigned blog uploaded day10 copies A’s Hall 1 text. It declares no authority to amend club assignments.	Copy of A,not independent confirmation
D	Facilities sheet issued day9: Hall 1 is available that day. It makes no club C7assignment.	Separate origin,but answers availability rather than authorisation

Build a quality grid and defend the relevant chain

1. Precise research question: under the declared club-owner policy,which hall may club C7use on day9? Audit each of the four supplied sources for issuer authority,claim relevance,query/effective-date fit and origin dependence. Use an evidence grid instead of inventing numeric weights. Defend A+B as the version chain supporting the assignment.

   C adds no independent confirmation; D can be current and official for availability without authorising this club. Retrieval may happen after day10 while the question concerns day9; preserve that historical scope. The pair A+B establishes a declared chain,not two independent observations. Propose what to request if B’s authority,reference link or effective date is absent.

   No real school policy or website is being inspected. Keep the independent capacity14/9record withheld.

Keep the evidence record

Test / input · Prediction · Actual · Evidence / calculation · Change or keep?

> **Test / input:** normal
>
> **Prediction:** _____
>
> **Actual:** _____
>
> **Evidence / calculation:** _____
>
> **Change or keep?:** _____

> **Test / input:** boundary
>
> **Prediction:** _____
>
> **Actual:** _____
>
> **Evidence / calculation:** _____

>
> **Actual:** _____
>
> **Evidence / calculation:** _____
>
> **Change or keep?:** _____

What did the hardest test teach you that the normal test did not?

Write or draw your reasoning and evidence.

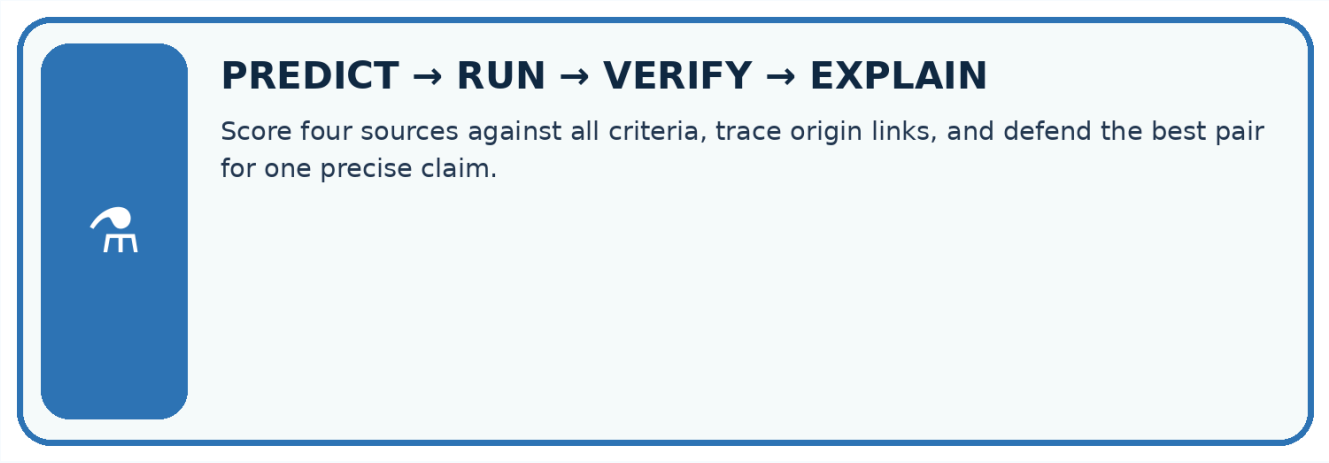

Before trying: what do I expect, and why? While trying: which step could first go wrong? Afterwards: what did I actually observe, and what should change? Keep “not run” if you only traced the procedure.

▼ Earlier wording, alternatives and picture transcripts

EVIDENCE LAB

Predict → Test → Record → Explain

Keep expected and actual results separate. Surprises are useful data when recorded honestly.

Audit the four supplied fictional source cards for the club C7day9assignment. Record authority,relevance,effective dates and origin links without inventing numeric weights. Distinguish an amendment chain from independent corroboration and availability from authorisation.

Plan → try → check

MAIN LESSON · SECTION 14

Try alone: trace the fresh capacity amendment

> Select the applicable version for each query day.

Independent records and policy scope

Original allows capacity 14. Signed amendment lowers it to 9 effective day 5. Query concerns days 4 and 6. Trace both and preserve versions.

Apply the supplied classroom amendment policy,including its effective-day boundary. Use only the original and signed amendment described in this task,and retain their relationship. No real room inspection,extra version or new authority rule is supplied.

Your first attempt and help record

My independent explanation, trace and limits

Attempt this case before feedback. Record any help. Earlier examples below are further practice; a case already practised with feedback cannot establish fresh transfer.

Your teacher has the independent answer and scoring criteria. Complete the matching workbook week to keep your practice **evidence** together.

Use feedback afterwards

Attempt the independent case before hints. Record whether you worked alone, used a hint or followed a model. After feedback, fix the first unsupported step and explain why it changed.

A later check uses a changed case, not a copied answer.

▼ Earlier wording, alternatives and picture transcripts

Independent case: Apply a new case independently

Week 15 Independent application

Close the worked explanation. Apply the idea to this different question without copying.

For a school's current opening time, compare an undated repost with a dated notice issued by the school. Which is the stronger starting source, and what must still be checked?

My answer, with a trace, calculation or supporting **evidence**

> **Write or draw your reasoning and evidence.**

Create and test

Change one relevant detail. Predict the result before testing. Include a boundary or missing-information case when it helps reveal a limit.

My changed **input** and expected result

> **Write or draw your reasoning and evidence.**

Connect to your project

Use an approved source list and record why each source fits the learner's question.

The **evidence** I will keep

Write or draw your reasoning and evidence.

Transfer practice from the original programme

A school notice updated Friday conflicts with a blog quoting Monday's notice about a room change. Which source should you inspect first, and why is newest alone not enough?

Explain the mechanism, evidence and one limit.

Use feedback to improve

MAIN LESSON · SECTION 11

Keep the project's source selection explainable

State why each source supports this question at this time.

This week's concrete contribution

For the Verified Study Buddy,record the claim being answered,source owner/ID,version relationship,issued/uploaded date,effective date and relevant scope. Keep copies linked to their origin;several copies are not independent evidence. An official source may be authoritative for one fact and irrelevant to another.

If the precedence policy or current applicability is missing,preserve the conflict and ask the responsible source owner rather than choosing a convenient value.

Store Study Buddy source identity, version, **authority** and effective date, especially for schedules or changing classroom rules.

Keep the checkpoint and human choice

THIS WEEK'S CHECKPOINT Use an approved source list and record why each source fits the learner's question.

SYSTEM MAP Learner need → prompt/schema → approved sources/retrieval → model/tool → structured answer → verification → **human decision**

What will you add, change, or verify in the project this week?

> **Write or draw your reasoning and evidence.**

What should remain under **human control**?

> **Write or draw your reasoning and evidence.**

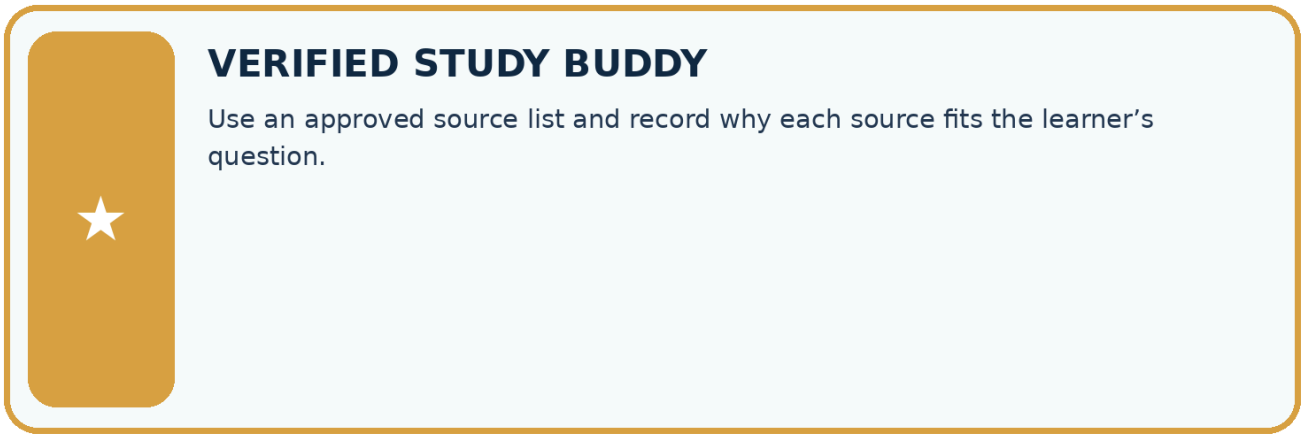

RESPONSIBLE DESIGN Collect only necessary information. Show uncertainty and limits. Never confuse fluent **output** with verified truth.

▼ Earlier wording, alternatives and picture transcripts

CUMULATIVE PROJECT

Verified Study Buddy

Every week adds one inspectable piece. The system must show how it reached a result.

Evidence for your project

MAIN LESSON · SECTION 16

Finish: name the claim,date,authority and version link

> A newer upload is not a substitute for the applicable evidence chain.

Explain without notes

- Close your notes. Explain this goal in your own words: Explain the **mechanism** and terminology of conflicting and time-sensitive sources

My deciding step, evidence and one remaining question

Plan a changed-case return

If you are unsure, return to the worked picture and explain one arrow. If you are ready, change an **input** or assumption and justify your **prediction**.

Save your workbook **evidence**. At the next review, try a different case before opening your old answer.

Reference bank and extra practice

Choose the reference that helps your next step.

▼ **Your quick word guide**

REFERENCE · SECTION 5

Your quick word guide

> Use the words to explain a particular step, record or limit.

Core vocabulary

Word	My own example	Not this / boundary
authority	A person or source with relevant responsibility or evidence for a particular decision or claim.	
relevance	How directly information helps answer the stated question or perform the task.	
currency	How up to date information is for the task and time concerned.	
independence	Separation from influences relevant to a judgment, such as keeping final test cases out of model selection.	

Terms for the connected explanation

Word	Meaning
Effective time	When a declared change begins to apply

Word	Meaning
Supersession	A documented replacement relationship between versions
Temporal scope	The time conditions a claim concerns

▼ Earlier wording, alternatives and picture transcripts

VOCABULARY LAB

Words You Can Use to Reason

A definition matters when you can recognize the idea, use it, and contrast it with a near-miss.

2

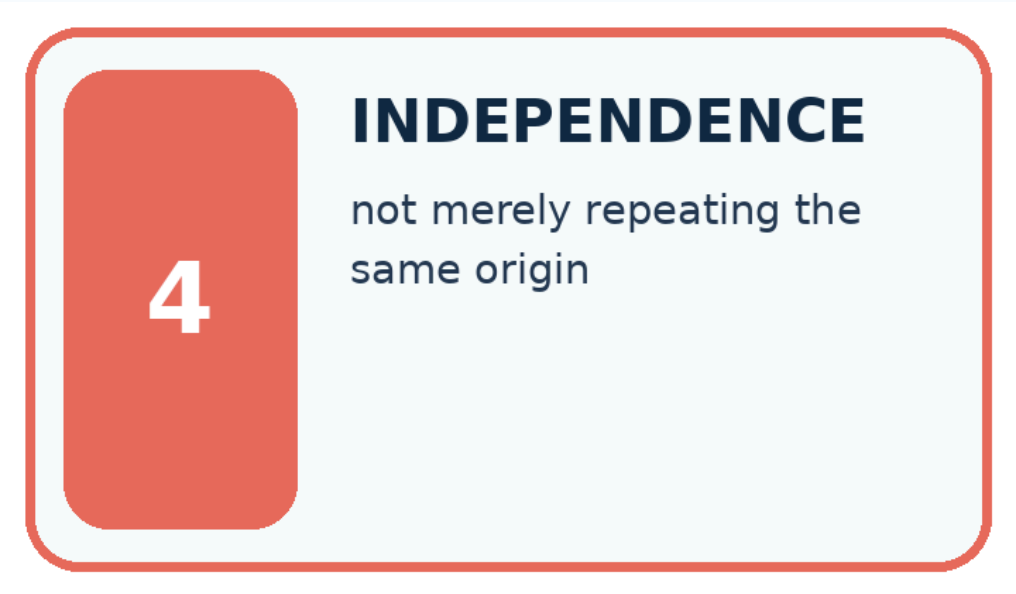

RELEVANCE

direct fit to the question

3

CURRENCY

appropriate timeliness

Words used in the closer explanation

▼ **Choose a stronger thinking challenge**

REFERENCE · SECTION 10

Choose a stronger thinking challenge

> Choose the next useful challenge rather than treating the whole ladder as compulsory.

Pick your next step

- 1 • NAME: Define the concept without repeating the textbook.
- 2 • TRACE: Show the information, state, branch, calculation, or **evidence** path.
- 3 • APPLY: Solve a different example independently.
- 4 • CHALLENGE: Find a boundary case, counterexample, or unfair outcome.

- 5 • EXPLAIN LIMITS: Say when the result should not be trusted or used alone.

- My strongest **evidence** of independent understanding:

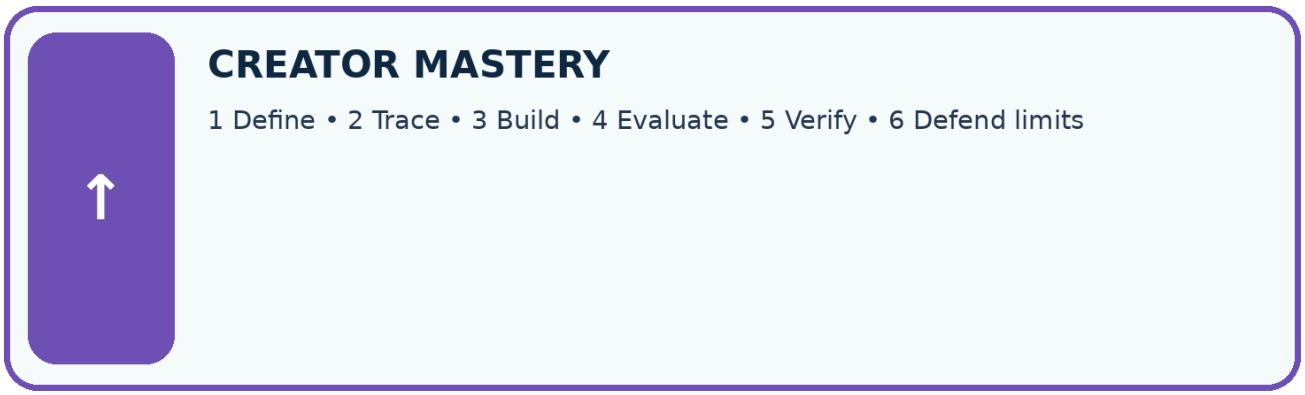

Write or draw your reasoning and evidence.

▼ Earlier wording, alternatives and picture transcripts

MASTERY

From Knowing the Word to Owning the Idea

Move upward only when you can produce **evidence** without copying the worked example.

▼ Reference: check your explanation

Reference: check your explanation

> Use after practice. Trace a new capacity version independently is the selected independent case.

Check the evidence and its limit

- 1. My fresh example, trace, calculation, or design:
- 2. My **evidence** that it works (include a boundary or missing-data case):
- 3. One limitation, fairness concern, or situation needing human review:

> **Write or draw your reasoning and evidence.**

> **Write or draw your reasoning and evidence.**

Self-check and record

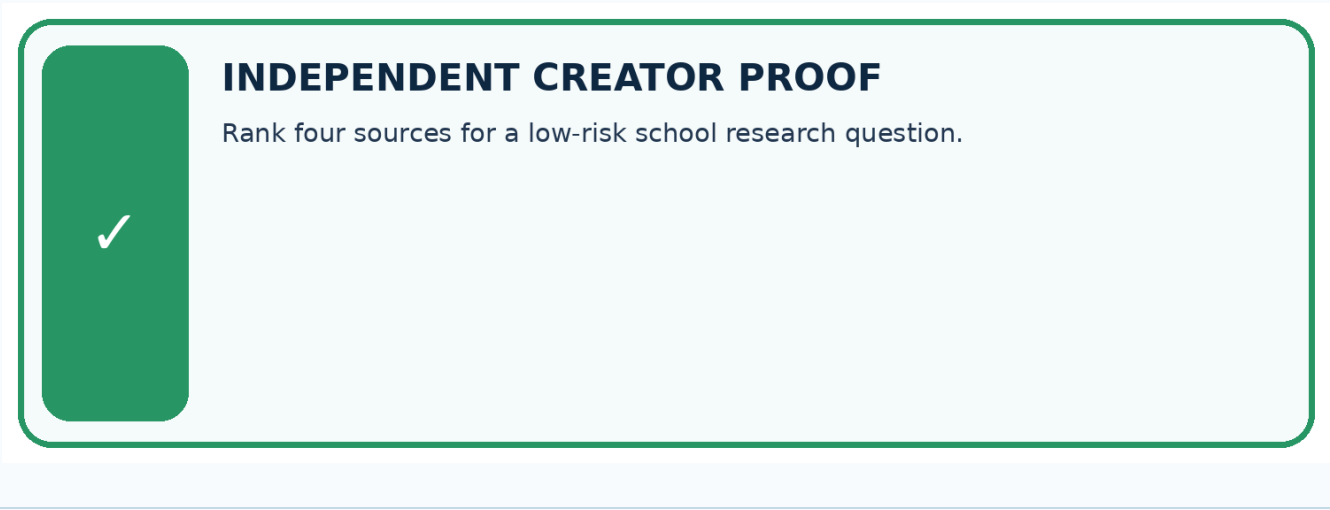

SELF-CHECK ☐ I explained the **mechanism** ☐ I used **evidence** ☐ I tested a fresh case ☐ I named a limitation ☐ I can answer 'why?'

▼ **Earlier wording, alternatives and picture transcripts**

INDEPENDENT MASTERY PROOF

Checklist for explaining this week's idea

Use after practice. Trace a new capacity version independently is the selected independent case.

EXPLANATION CHECK Require the stated authority chain,effective-time boundary,applicable version and unresolved-policy limit.

Write or draw your reasoning and evidence.

▼ **Extra practice: Follow a summary back to its evidence**

REFERENCE · SECTION 13

Extra practice: Follow a summary back to its evidence

Try the question before opening its worked explanation.

Read the supplied case and question

An original experiment report and an anonymous unlinked summary describe a method.

Where should verification begin?

Your explanation

- Which detail supports the answer, and why does it matter?

Write or draw your reasoning and evidence.

▼ Check after trying

Read the original method, scope and limitations. Original does not mean infallible; summaries may omit conditions.

Evidence or stage	Value or result
Summary	Identify its source
Original report	Read method and scope
Limitations	Keep conditions attached
Conclusion	State what evidence supports

▼ Earlier wording, alternatives and picture transcripts

Week 15 Worked case

Use the supplied details to practise the weekly concept before attempting the independent question. This case extends the illustrated lesson.

The situation

The question

Worked explanation

Explain it in your own words

Trace the supplied case visually

Follow a summary back to its evidence

An original experiment report and an anonymous unlinked summary describe a method.

Where should verification begin?

Read the original method, scope and limitations. Original does not mean infallible; summaries may omit conditions.

▼ Reference: original lesson checklist

REFERENCE · SECTION 15

Reference: original lesson checklist

> Use an additional checklist when it helps inspect your explanation.

Targets and evidence

By the end, I can	How I will show it
Explain the mechanism and terminology of conflicting and time-sensitive sources	Explain the deciding step, show a trace or test, and state one limit.
Apply the stated procedure to a new case with a traceable result	Explain the deciding step, show a trace or test, and state one limit.
Identify an assumption or limitation and design a revealing follow-up	Explain the deciding step, show a trace or test, and state one limit.

Keep your route and first prediction

Remember → watch and explain → try with help → investigate → try independently → keep project **evidence**. Your teacher may spread this lesson across several classes.

Keep your first **prediction**. Compare it with what the **evidence** shows and explain any change.

▼ Earlier wording, alternatives and picture transcripts

Start with this question: A fictional Study Buddy answers which room a club is authorised to use.

▼ Extra practice: pictures, repair and feedback

REFERENCE · SECTION 17

Extra practice: pictures, repair and feedback

> Attempt each question before opening its explanation. Use one browser or paper copy.

First supported question

- A fictional Study Buddy answers which room a club is authorised to use.
- Which labelled step matches this detail? Reuploading old A on day 10 does not revoke B.
- 1. Day 9
- 2. Ignore upload shortcut
- 3. Day 6
- 4. Check **authority**
- Hint if needed: Read the steps in the pictorial case. Match the supplied detail to the stage that performs or records it.

Practice 1: explain the deciding evidence

> **My selected conclusion, deciding fact and explanation**

▼ **Check the first explanation**

After your attempt, compare with the supported explanation: Ignore upload shortcut Reuploading old A on day 10 does not revoke B. A source's upload time and the time its rule takes effect answer different questions.

Preserve version relationships and the query's intended date. The current authoritative chain gives a consistent answer to both queries.

A later filename or timestamp alone cannot establish that an old record supersedes a signed amendment.

Changed-case question

- Changed-case practice: A signed amendment C explicitly revokes B effective day 12 and restores Hall 1. Which conclusion is supported by the supplied facts?
- 1. Day 9 stays Hall 3; day 13 becomes Hall 1.
- 2. We can decide the result without examining the changed **input** or the procedure.
- 3. This one example guarantees correct results for every future **input**.
- Hint if needed: Use the changed condition and the deciding step in the pictorial trace. The answer must say what follows from those facts.

Practice 2: explain the deciding evidence

My selected conclusion, deciding fact and explanation

▼ **Check the changed case**

After your attempt, compare with the supported explanation: Day 9 stays Hall 3; day 13 becomes Hall 1. The new authoritative change applies from its stated effective date, not retroactively.

Repair and save your work

Review Hallucination Failure Types (ai-3/14). Goal: Explain the **mechanism** and terminology of generation failures and verification. Short practice: Can we conclude there will definitely be no lunch from S alone?.

Return to this week and explain what you changed.

Review Speech and Audio Systems (ai-3/12). Goal: Explain the **mechanism** and terminology of speech pipelines and multimodal **evidence**.

Short practice: Which stage was initially wrong, and which stage was correctly operating on a wrong **input**?. Return to this week and explain what you changed.

Review Prompt Evaluation (ai-3/9). Goal: Explain the **mechanism** and terminology of controlled prompt experiments. Short practice: Why is B's selection defensible here without calling it universally superior?.

Return to this week and explain what you changed.

Use Download completed work in the hosted lesson to export your answers, reflections, practice feedback and code-run **evidence**. Open the HTML copy to read or print it.

Drafts stay in this browser when storage is available; clear drafts on a shared device.

▼ **Earlier wording, alternatives and picture transcripts**

Use this supported practice once, in the browser or on paper. Keep the reserved independent assessment for a separate first attempt before teacher feedback.

Repair a missing building block

Keep your completed work

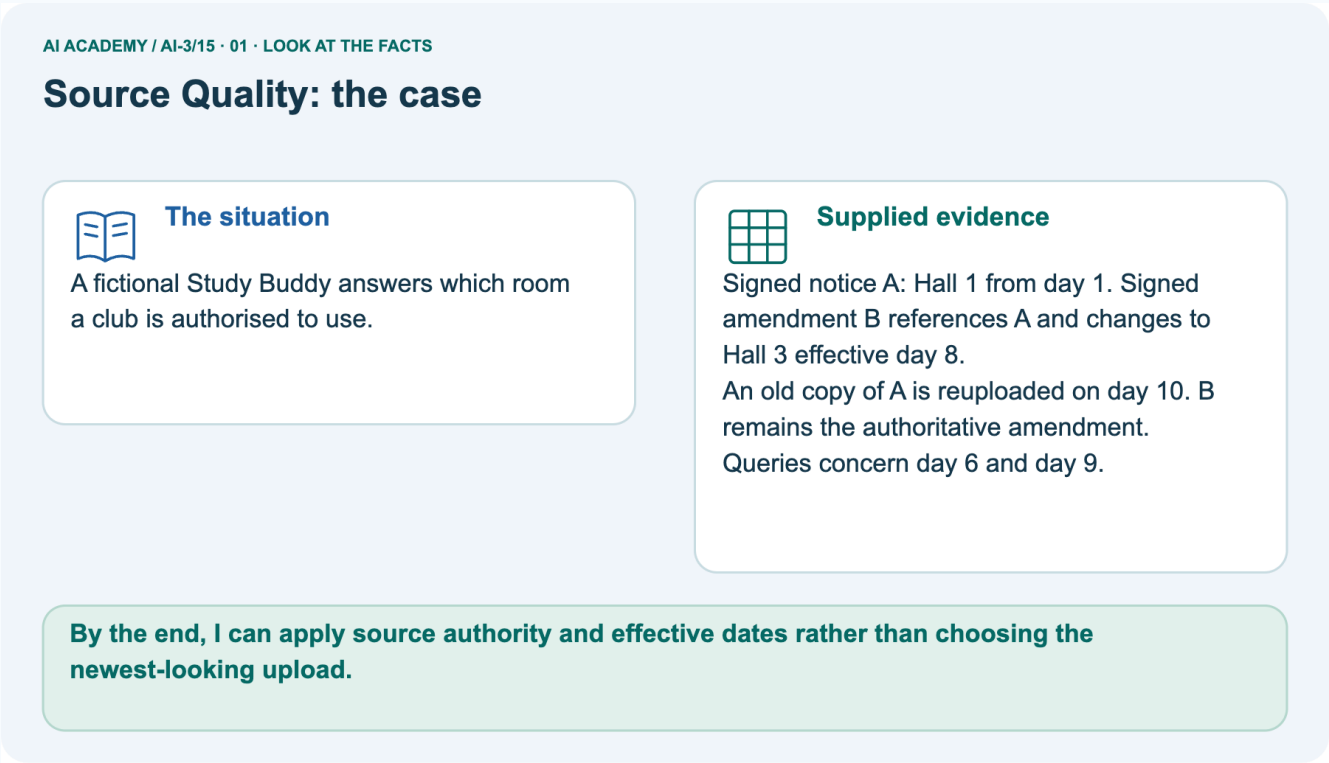

▼ **Reference: the six-picture journey**

REFERENCE · SECTION 18

Reference: the six-picture journey

> Revisit the picture that serves the current question; key diagrams already sit beside the main explanation.

01. Source Quality: the case

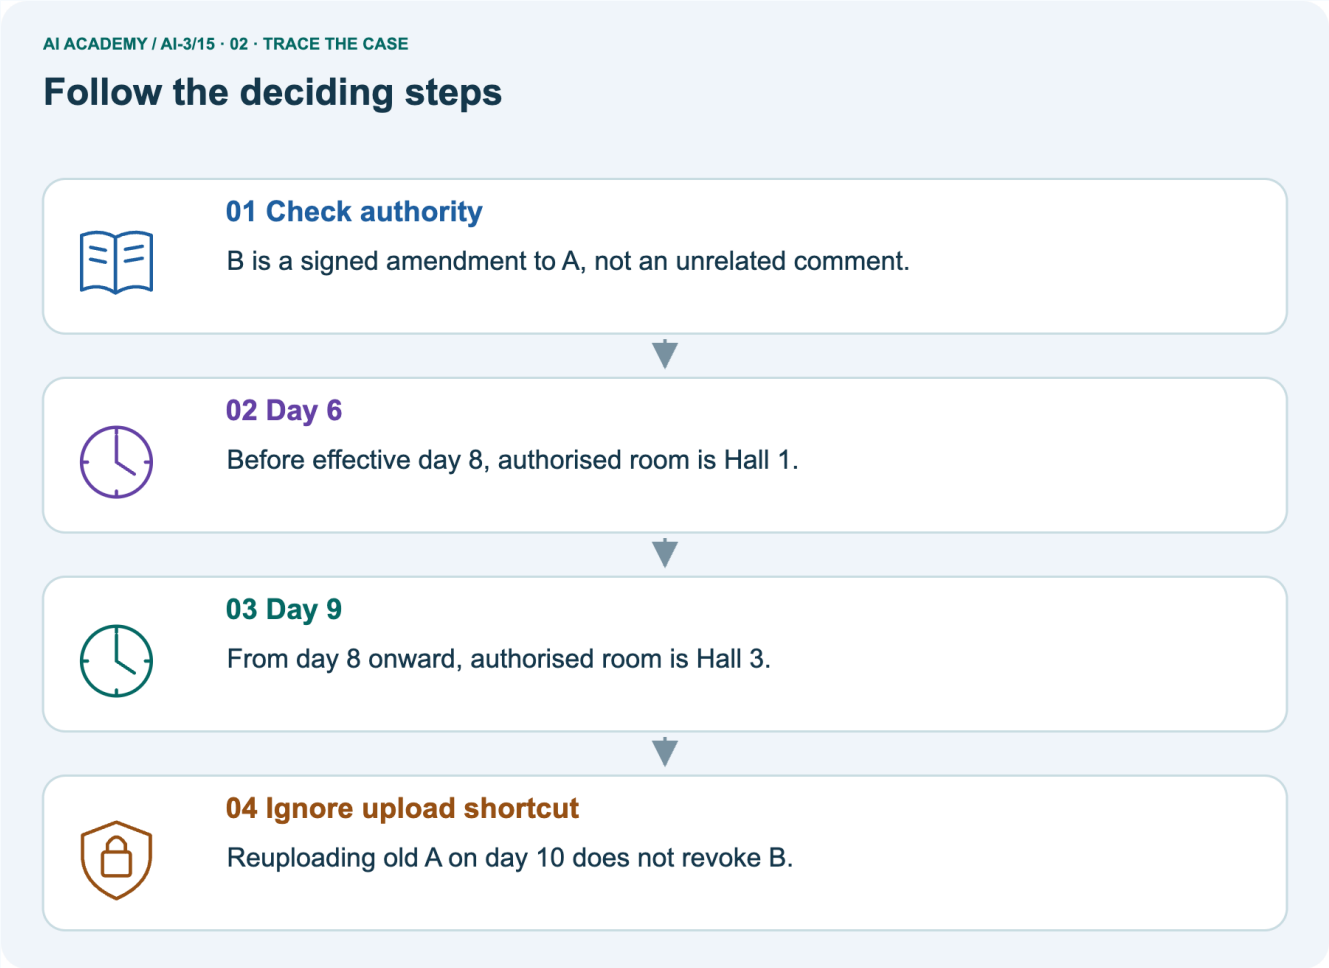

Follow the labelled picture with the matching explanation. Open the vector diagram

A fictional Study Buddy answers which room a club is authorised to use. Supplied facts: Signed notice A: Hall 1 from day 1. Signed amendment B references A and changes to Hall 3 effective day 8.

An old copy of A is reuploaded on day 10. B remains the authoritative amendment. Queries concern day 6 and day 9.

Point to the given fact that matters most. Explain why it matters.

02. Follow the deciding steps

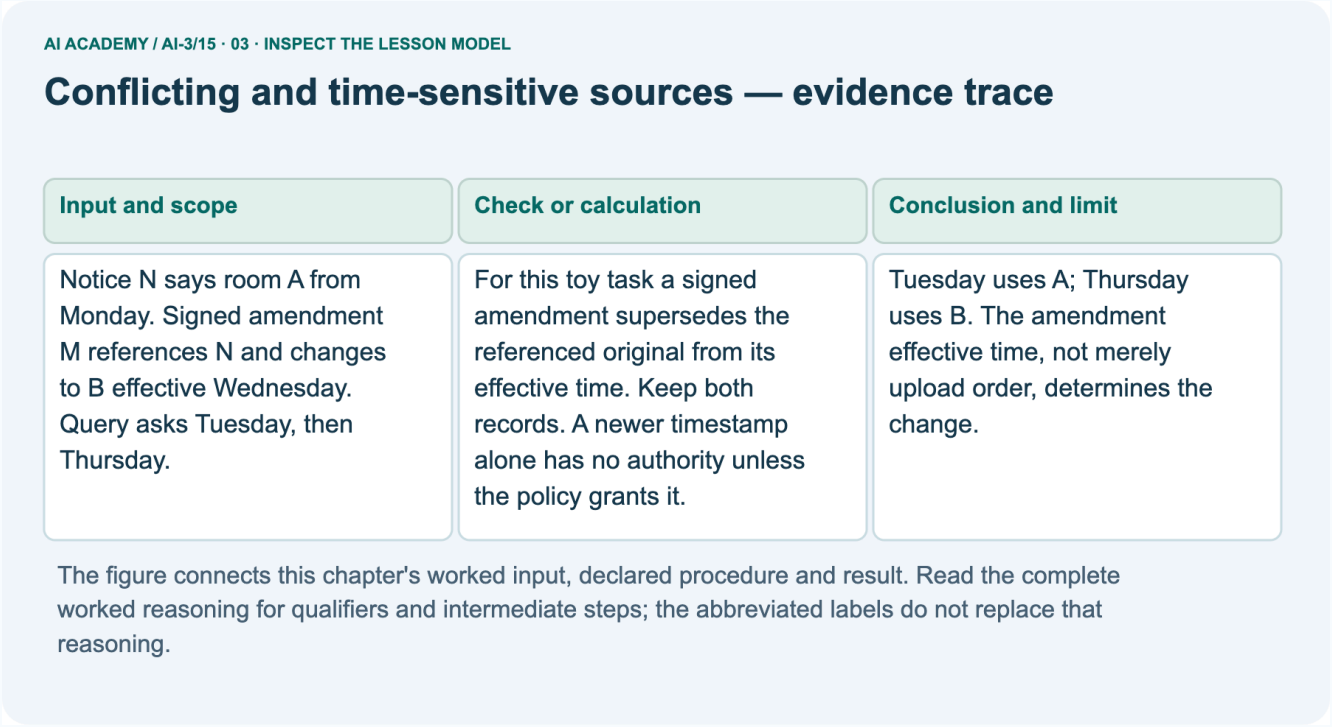

Follow the labelled picture with the matching explanation. Open the vector diagram

Check **authority**: B is a signed amendment to A, not an unrelated comment. → Day 6: Before effective day 8, authorised room is Hall 1. → Day 9: From day 8 onward, authorised room is Hall 3. → Ignore upload shortcut: Reuploading old A on day 10 does not revoke B.

Point to each numbered stage and explain which recorded **input** it uses.

03. Conflicting and time-sensitive sources — evidence trace

Follow the labelled picture with the matching explanation. Open the vector diagram

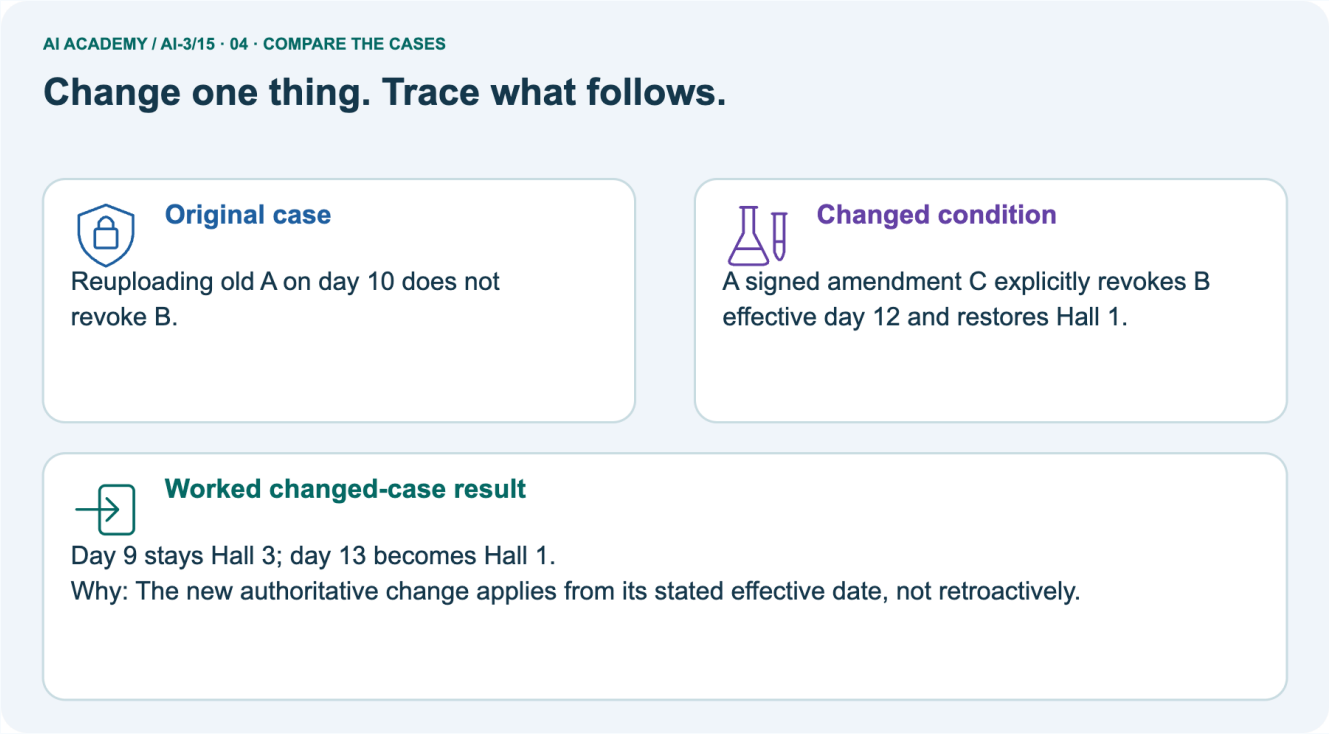

Conflicting and time-sensitive sources — **evidence** trace. Notice N says room A from Monday. Signed amendment M references N and changes to B effective Wednesday.

Query asks Tuesday, then Thursday. | For this toy task a signed amendment supersedes the referenced original from its **effective time**. Keep both records.

A newer timestamp alone has no **authority** unless the policy grants it. | Tuesday uses A; Thursday uses B. The amendment **effective time**, not merely upload order, determines the change.

Read the labels and values. Explain the relationship the model shows.

04. Change one thing. Trace what follows.

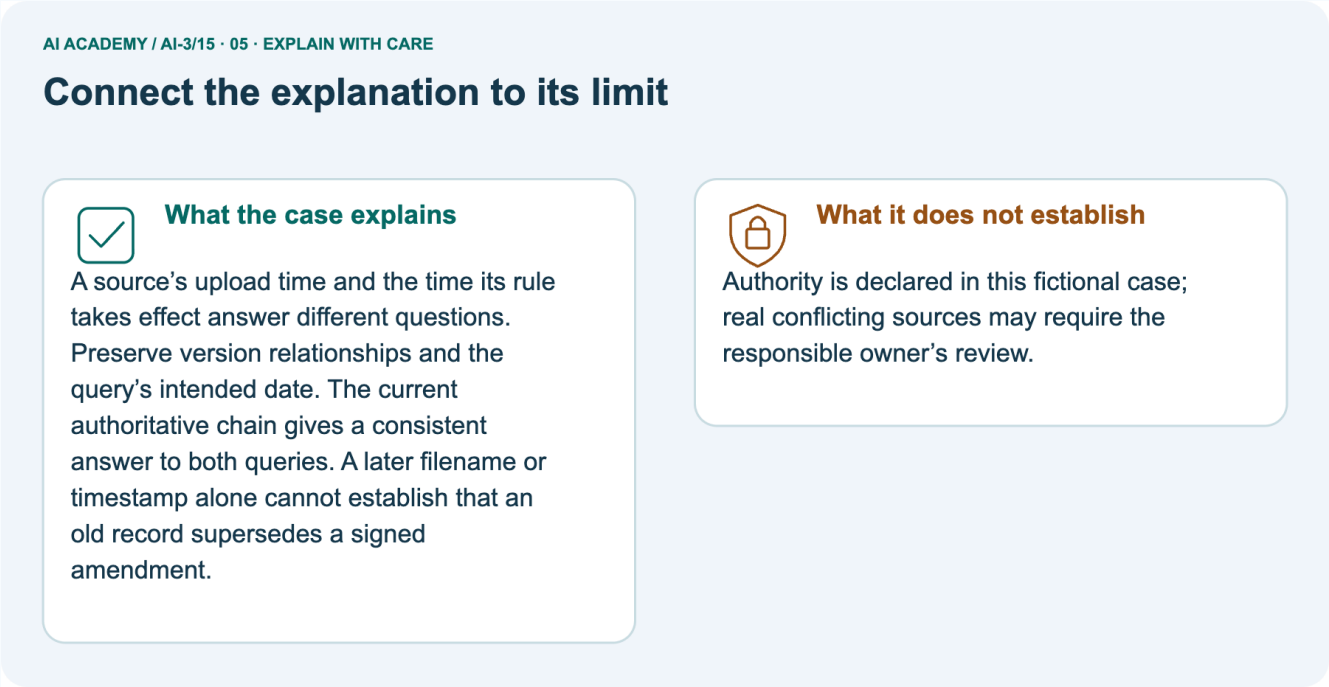

Follow the labelled picture with the matching explanation. Open the vector diagram

Original case: Reuploading old A on day 10 does not revoke B. Changed condition: A signed amendment C explicitly revokes B effective day 12 and restores Hall 1. Expected result: Day 9 stays Hall 3; day 13 becomes Hall 1.

Reason: The new authoritative change applies from its stated effective date, not retroactively.

Predict before checking the worked changed-case result. Name what changed and what the supplied facts allow you to conclude.

05. Connect the explanation to its limit

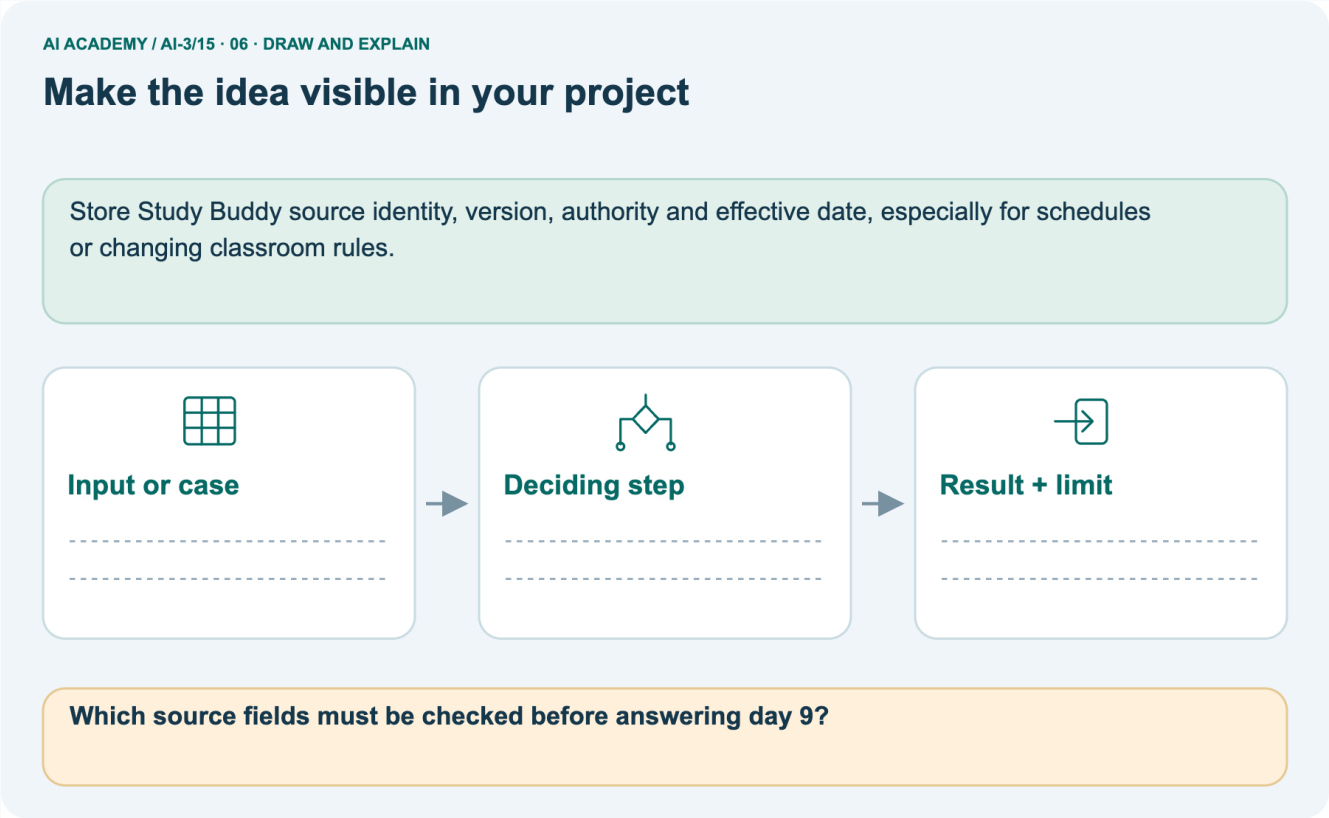

Follow the labelled picture with the matching explanation. Open the vector diagram

A source's upload time and the time its rule takes effect answer different questions. Preserve version relationships and the query's intended date. The current authoritative chain gives a consistent answer to both queries.

A later filename or timestamp alone cannot establish that an old record supersedes a signed amendment. Limit: **Authority** is declared in this fictional case; real conflicting sources may require the responsible owner's review.

Explain the case, then point to a limit on the claim.

06. Make the idea visible in your project

Follow the labelled picture with the matching explanation. Open the vector diagram

Store Study Buddy source identity, version, **authority** and effective date, especially for schedules or changing classroom rules. Draw your **input**, deciding step, result and limit.

Supported question: Which source fields must be checked before answering day 9?

Draw your project trace and justify the deciding step using **evidence**.

▼ Earlier wording, alternatives and picture transcripts

01. Source Quality: the case

02. Follow the deciding steps

03. Conflicting and time-sensitive sources — evidence trace

04. Change one thing. Trace what follows.

05. Connect the explanation to its limit

06. Make the idea visible in your project
