

Humans Set Boundaries

Project: Helpful Classroom Sorter

1. Recall and choose your starting point

Try the recall before opening notes. Then use a different colour or a labelled second line to correct your explanation.

Verify Important Outputs

Without opening the old lesson, explain one key idea from Verify Important Outputs. Give an example and a mistake that the idea helps you avoid.

My remembered idea, example and correction

Generate, Retrieve, or Calculate?

Without opening the old lesson, explain one key idea from Generate, Retrieve, or Calculate?. Give an example and a mistake that the idea helps you avoid.

My remembered idea, example and correction

Missing and Unbalanced Examples

Without opening the old lesson, explain one key idea from Missing and Unbalanced Examples. Give an example and a mistake that the idea helps you avoid.

My remembered idea, example and correction

2. Practise with fading help

Use W2: Read an approval without enlarging it for Human authority and permission. Record the answer once; the lesson and workbook refer to the same attempt.

Given inputs · Procedure I chose · Middle steps · Result and check

Given inputs: _____

Procedure I chose: _____

Middle steps: _____

Result and check: _____

The step I completed without help, and the hint I needed

3. Individual reasoning check

Use the worked case for Human authority and permission. Proposed explanation: “A working button grants permission”. Decide whether this explanation is supported. Point to the step or supplied fact that decides; explain your repair if needed.

My explanation before partner discussion

4. Independent transfer case

Independent case: Transfer the permission check to a new case

In a fictional library, the librarian controls the internal shelf list. The librarian tells assistant Jo: “Replace the internal list with checked version L2 on Friday, once. Do not change the public catalogue.” It is Friday, L2 remains checked, and no replacement has occurred. A tool offers both destinations. Assess these proposals separately: Jo replaces the internal list with L2; Jo updates the public catalogue with L2; visitor Sam replaces the internal list with L2; Jo replaces the internal list with a changed L3. Identify the approval detail that settles each case.

My independent explanation, trace and limits

Attempt this case before feedback. Record any help. Earlier examples below are further practice; a case already practised with feedback cannot establish fresh transfer.

5. Your learning target

A classroom assistant may draft a reminder but cannot send messages. It displays a completed draft and waits. A student writes 'looks good' without a destination. Has a clear send authorisation been given? Specify what is needed.

6. Solve the given case

An assistant may suggest object locations; a teacher must approve moving valuable equipment.

What may happen without approval?

Show your trace, calculation or evidence

Write or draw your reasoning and evidence.

7. Check a changed case

A sorter marks a child's notebook throw away. Who should decide whether it is discarded? Name a boundary the system should enforce.

My independent answer and reason

Write or draw your reasoning and evidence.

Week 28 Test and reflect

8. Design a revealing test

Create a changed input, boundary case or missing-information case. Write the expected answer or safe response before testing.

Test record · My evidence

Test record: Changed input or condition

My evidence: _____

Test record: Expected answer or fallback

My evidence: _____

Test record: Observed result

My evidence: _____

Test record: Why the result occurred

My evidence: _____

9. Project checkpoint

Complete the sorter's human-control map: permissions, review triggers, override, correction, and stop conditions.

The project change and evidence I will keep

Write or draw your reasoning and evidence.

10. Self check

I can explain the mechanism. I can show evidence. I can handle a changed case. I can name a limit. Mark each as not yet, with help or independently, and attach supporting work.

Teacher review _____ Next step _____

11. Transfer practice from the original programme

A classroom assistant may draft a reminder but cannot send messages. It displays a completed draft and waits. A student writes 'looks good' without a destination. Has a clear send authorisation been given? Specify what is needed.

My independently reasoned answer

Record support used: none, hint or teacher explanation.

12. W1 Separate three kinds of evidence

A tool offers a Public website button. The exhibition facts in A have been verified. The teacher’s approval covers the classroom board only. State what the button, the fact check and the approval each establish. Decide whether the editor may publish A publicly.

My reasoning and evidence

13. W2 Read an approval without enlarging it

List the decision maker, allowed actor, version, destination, timing and number of postings in the original exhibition approval. Before any posting and with no changes to the facts or permission, explain whether the editor can carry out that exact action without asking again.

My reasoning and evidence

14. W3 Prepare a reviewable change

The room changes to Room 8 and the editor creates B. Explain why publishing old A and publishing unapproved B each fail a different check. Write a specific request for the teacher to review B, keeping the original destination and one-posting limit.

My reasoning and evidence

15. W4 Transfer the permission check to a new case

In a fictional library, the librarian controls the internal shelf list. The librarian tells assistant Jo: “Replace the internal list with checked version L2 on Friday, once. Do not change the public catalogue.” It is Friday, L2 remains checked, and no replacement has occurred. A tool offers both destinations. Assess these proposals separately: Jo replaces the internal list with L2; Jo updates the public catalogue with L2; visitor Sam replaces the internal list with L2; Jo replaces the internal list with a changed L3. Identify the approval detail that settles each case.

My reasoning and evidence

16. W5 Avoid an accidental second action

Jo attempts the permitted internal replacement, but the tool’s response does not show whether it succeeded. Explain why immediately repeating it is a poor choice under a once-only approval. What

should Jo check? If Jo discovers a public change occurred instead, describe the first recovery steps.

My reasoning and evidence

17. Feedback, return check and learning record

Evidence · My record

Evidence: Worked alone / hint / model

My record: _____

Evidence: First step I repaired and why

My record: _____

Evidence: New case checked later; date and result

My record: _____

Evidence: What I can now explain without notes

My record: _____

Evidence: One remaining question

My record: _____

Revisit this idea with your teacher after a delay. Familiarity is different from explaining and using it on a changed case.

18. Pictorial case practice: Humans Set Boundaries

A fictional teacher approves one checked classroom poster for internal display.

Approval: publish exactly poster P2 on the classroom noticeboard today, once.

Assistant proposes P2 there; P3 there after an edit; P2 on a public website.

AI ACADEMY / AI-1/28

Humans Set Boundaries

Start with the supplied facts

Follow each arrow. Ask which fact allows the next step.

1. Read authority

The teacher approved P2, one internal noticeboard and one publication.

2. Allowed action

Publishing unchanged P2 there today matches the approval.

3. Changed version

P3 requires new review; P2 approval does not automatically cover edits.

4. Changed audience

Public-web publication exceeds the approved destination.

CHANGE ONE THING

P2 has already been published once under this approval.

Explain the changed result using the matching lesson.

Which original proposal is authorised? Why do the other two need separate approval?

My picture-based explanation and changed-case prediction

Support used: alone / hint / worked example. This record is practice evidence.

Project connection: Record sorter actions allowed automatically and actions requiring the classroom owner’s explicit review.
