

Recommendations

Project: Helpful Classroom Sorter

1. Recall and choose your starting point

Try the recall before opening notes. Then use a different colour or a labelled second line to correct your explanation.

Similarity

Without opening the old lesson, explain one key idea from Similarity. Give an example and a mistake that the idea helps you avoid.

My remembered idea, example and correction

Prediction Is Not Fact

Without opening the old lesson, explain one key idea from Prediction Is Not Fact. Give an example and a mistake that the idea helps you avoid.

My remembered idea, example and correction

Build a Human Classifier

Without opening the old lesson, explain one key idea from Build a Human Classifier. Give an example and a mistake that the idea helps you avoid.

My remembered idea, example and correction

2. Practise with fading help

Use W2: Explain a recommendation honestly for Recommendations and feedback. Record the answer once; the lesson and workbook refer to the same attempt.

Given inputs · Procedure I chose · Middle steps · Result and check

Given inputs: _____

Procedure I chose: _____

Middle steps: _____

Result and check: _____

The step I completed without help, and the hint I needed

3. Individual reasoning check

Use the worked case for Recommendations and feedback. Proposed explanation: “A high score can cancel a failed requirement”. Decide whether this explanation is supported. Point to the step or supplied fact that decides; explain your repair if needed.

My explanation before partner discussion

4. Independent transfer case

Independent case: Transfer the process to activities

A fictional learner needs an indoor activity lasting at most 20 minutes. Preferences score 2 for drawing and 1 for solo. Candidates: A drawing, solo, outdoor, 10 minutes; B drawing, group, indoor, 20 minutes; C music, solo, indoor, 15 minutes; D drawing, group, indoor, 18 minutes. Filter, score and return all highest scorers. Only B is then shown and selected; C and D are not shown. State what the feedback establishes and what remains unknown.

My independent explanation, trace and limits

Attempt this case before feedback. Record any help. Earlier examples below are further practice; a case already practised with feedback cannot establish fresh transfer.

5. Your learning target

A system shows only adventure books and records only adventure clicks. It concludes the reader dislikes poetry. Explain the missing evidence and propose a small test.

6. Solve the given case

A recommender suggests adventure books after one adventure-book choice.

Explain its evidence and limitation.

Show your trace, calculation or evidence

Write or draw your reasoning and evidence.

7. Check a changed case

A recommender suggests a space book because you liked two space books. Does the suggestion prove you will enjoy it? What feedback could help next time?

My independent answer and reason

Write or draw your reasoning and evidence.

Week 20 Test and reflect

8. Design a revealing test

Create a changed input, boundary case or missing-information case. Write the expected answer or safe response before testing.

Test record · My evidence

Test record: Changed input or condition

My evidence: _____

Test record: Expected answer or fallback

My evidence: _____

Test record: Observed result

My evidence: _____

Test record: Why the result occurred

My evidence: _____

9. Project checkpoint

If the sorter ranks bins, state the objective and show why the top suggestion is not a command.

The project change and evidence I will keep

Write or draw your reasoning and evidence.

10. Self check

I can explain the mechanism. I can show evidence. I can handle a changed case. I can name a limit. Mark each as not yet, with help or independently, and attach supporting work.

Teacher review _____ Next step _____

11. Transfer practice from the original programme

A system shows only adventure books and records only adventure clicks. It concludes the reader dislikes poetry. Explain the missing evidence and propose a small test.

My independently reasoned answer

Record support used: none, hint or teacher explanation.

12. W1 Filter before scoring

Apply BookRec1 to J, K, L and M from the lesson. State eligibility or exclusion reason for each, the scores of eligible books and the recommendation. Explain why L's two preference matches do not make it the winner.

My reasoning and evidence

13. W2 Explain a recommendation honestly

Write an explanation of why J was recommended that mentions one preference it does not match. A marketer adds guaranteed enjoyment. Explain why that phrase is unsupported.

My reasoning and evidence

14. W3 Do not label an unseen item rejected

J was shown and clicked. K was never shown. Separate the observed records from the labels enjoyed and disliked. Write a question that could gather a stated reason while allowing no answer.

My reasoning and evidence

15. W4 Transfer the process to activities

A fictional learner needs an indoor activity lasting at most 20 minutes. Preferences score 2 for drawing and 1 for solo. Candidates: A drawing, solo, outdoor, 10 minutes; B drawing, group, indoor, 20 minutes; C music, solo, indoor, 15 minutes; D drawing, group, indoor, 18 minutes. Filter, score and return all highest scorers. Only B is then shown and selected; C and D are not shown. State what the feedback establishes and what remains unknown.

My reasoning and evidence

16. W5 Handle an empty eligible set

Return to BookRec1. J and K become unavailable, L remains Spanish, and M's availability becomes unknown. A designer proposes recommending M anyway because it matches both preferences. Apply the requirements and propose an honest response.

My reasoning and evidence

17. Feedback, return check and learning record

Evidence · My record

Evidence: Worked alone / hint / model

My record: _____

Evidence: First step I repaired and why

My record: _____

Evidence: New case checked later; date and result

My record: _____

Evidence: What I can now explain without notes

My record: _____

Evidence: One remaining question

My record: _____

Revisit this idea with your teacher after a delay. Familiarity is different from explaining and using it on a changed case.

18. Pictorial case practice: Recommendations

A fictional classroom break chooser recommends a suitable paper activity.

Must be quiet and take at most 12 minutes. Score 2 for puzzles and 1 for solo.

A puzzle,solo,noisy,8 min; B puzzle,group,quiet,12 min; C drawing,solo,quiet,10 min.

Requirements before preferences

	Quiet	Minutes	Score	Status
A	No	8	3	excluded
B	Yes	12	2	eligible
C	Yes	10	1	eligible

Read a cell using both its row and column labels.

Recommendations

Start with the supplied facts

Follow each arrow. Ask which fact allows the next step.

1. Requirements

Reject A because it is noisy despite a preference score of 3.

2. Eligible candidates

B and C both satisfy time and quiet requirements.

3. Preference scores

B scores 2; C scores 1.

4. Recommend

Choose B; preserve the reasons and any later feedback.

CHANGE ONE THING

Change the maximum time to 10 minutes.

Explain the changed result using the matching lesson.

Why does the recommendation change without changing anyone's preferences?

My picture-based explanation and changed-case prediction

Support used: alone / hint / worked example. This record is practice evidence.

Project connection: Separate sorter requirements, preferences and observed feedback; document why a suggestion was eligible.

19. Project portfolio milestone

Project: Helpful Classroom Sorter

Current milestone: Evaluate and revise. Compare with your starting method, explain errors and record a justified revision.

Separate sorter requirements, preferences and observed feedback; document why a suggestion was eligible.

Evidence to keep · My record

Evidence to keep: This week's input and deciding step

My record: _____

Evidence to keep: Prediction and actual result (or labelled paper trace)

My record: _____

Evidence to keep: One change since the previous checkpoint and why

My record: _____

Evidence to keep: One error or limit and the next test

My record: _____

Explain what this week adds to your project. Reuse last week's record rather than starting again.
