

Prompts Are Design Instructions

Project: Helpful Classroom Sorter

1. Recall and choose your starting point

Try the recall before opening notes. Then use a different colour or a labelled second line to correct your explanation.

Generate, Retrieve, or Calculate?

Without opening the old lesson, explain one key idea from Generate, Retrieve, or Calculate?. Give an example and a mistake that the idea helps you avoid.

My remembered idea, example and correction

Fair for Whom?

Without opening the old lesson, explain one key idea from Fair for Whom?. Give an example and a mistake that the idea helps you avoid.

My remembered idea, example and correction

Recommendations

Without opening the old lesson, explain one key idea from Recommendations. Give an example and a mistake that the idea helps you avoid.

My remembered idea, example and correction

2. Practise with fading help

Use W2: Score a response by separate criteria for Specifying and testing prompts. Record the answer once; the lesson and workbook refer to the same attempt.

Given inputs · Procedure I chose · Middle steps · Result and check

Given inputs: _____

Procedure I chose: _____

Middle steps: _____

Result and check: _____

The step I completed without help, and the hint I needed

3. Individual reasoning check

Use the worked case for Specifying and testing prompts. Proposed explanation: “A tidy response is a correct response”. Decide whether this explanation is supported. Point to the step or supplied fact that decides; explain your repair if needed.

My explanation before partner discussion

4. Independent transfer case

Independent case: Specify and test a new exhibit card

Fictional record X says an exhibit is called Shadow Pairs and is in Hall 2; no opening time is given. Write a complete prompt for a Grade 6 card with exactly three labelled lines: Title, Location, Opening. Limit facts to supplied records, define missing and conflicting values and prohibit added claims. Give two test inputs and expected outputs: original X, then X with an opening time of 10 am added.

My independent explanation, trace and limits

Attempt this case before feedback. Record any help. Earlier examples below are further practice; a case already practised with feedback cannot establish fresh transfer.

5. Your learning target

Write a request for a three-bullet explanation of evaporation for Grade 6 using only a supplied paragraph. Create three separately checkable acceptance criteria. What should happen if the paragraph does not explain evaporation?

6. Solve the given case

The prompt says make it good; the desired output is a four-line rain poem using simple words.
Write a checkable prompt.
Show your trace, calculation or evidence

Write or draw your reasoning and evidence.

7. Check a changed case

Improve this prompt: tell me about space. Specify a reader, a focused task and an output format suitable for a young learner.

My independent answer and reason

Write or draw your reasoning and evidence.

Week 26 Test and reflect

8. Design a revealing test

Create a changed input, boundary case or missing-information case. Write the expected answer or safe response before testing.

Test record · My evidence

Test record: Changed input or condition

My evidence: _____

Test record: Expected answer or fallback

My evidence: _____

Test record: Observed result

My evidence: _____

Test record: Why the result occurred

My evidence: _____

9. Project checkpoint

Write a transparent instruction for any generative explanation in the sorter and forbid invented item facts.

The project change and evidence I will keep

Write or draw your reasoning and evidence.

10. Self check

I can explain the mechanism. I can show evidence. I can handle a changed case. I can name a limit. Mark each as not yet, with help or independently, and attach supporting work.

Teacher review _____ Next step _____

11. Transfer practice from the original programme

Write a request for a three-bullet explanation of evaporation for Grade 6 using only a supplied paragraph. Create three separately checkable acceptance criteria. What should happen if the paragraph does not explain evaporation?

My independently reasoned answer

Record support used: none, hint or teacher explanation.

12. W1 Find what the vague request leaves open

The request says “Write something good about our club.” Name four decisions it leaves open. Then explain how source C, the Grade 6 audience and four labelled lines make the task easier to check.

My reasoning and evidence

13. W2 Score a response by separate criteria

For original C, a card gives four correctly labelled lines but says Time: 3 pm. All other values match C. State which format and evidence checks pass or fail. Is the card acceptable overall? Explain.

My reasoning and evidence

14. W3 Handle disagreement without choosing a favourite

C gives Room 7 and D gives Room 9 for the same club event, with no replacement or priority stated. Both agree on Monday and paper, and neither gives a time. Under P2, write the four output values and explain why the room cannot be selected from confidence or wording alone.

My reasoning and evidence

15. W4 Specify and test a new exhibit card

Fictional record X says an exhibit is called Shadow Pairs and is in Hall 2; no opening time is given. Write a complete prompt for a Grade 6 card with exactly three labelled lines: Title, Location, Opening. Limit facts to supplied records, define missing and conflicting values and prohibit added claims. Give two test inputs and expected outputs: original X, then X with an opening time of 10 am added.

My reasoning and evidence

16. W5 Preserve the comparison evidence

A pupil tries P1 once and P2 five times, then compares the P1 response only with the best P2 response and declares P2 always reliable. Identify two problems and design a fairer small comparison. State a conclusion the evidence could support.

My reasoning and evidence

17. Feedback, return check and learning record

Evidence · My record

Evidence: Worked alone / hint / model

My record: _____

Evidence: First step I repaired and why

My record: _____

Evidence: New case checked later; date and result

My record: _____

Evidence: What I can now explain without notes

My record: _____

Evidence: One remaining question

My record: _____

Revisit this idea with your teacher after a delay. Familiarity is different from explaining and using it on a changed case.

18. Pictorial case practice: Prompts Are Design Instructions

A fictional club needs a short exhibit card, without guesses.

Source A: exhibit Paper Birds, location Shelf 2. No duration appears.

Required output: two labelled lines, Exhibit and Duration; missing values must say not supplied.

Prompts Are Design Instructions

Start with the supplied facts

Follow each arrow. Ask which fact allows the next step.

1. State task

Produce exactly two labelled lines using source A only.

2. Find evidence

A supplies Paper Birds but no duration.

3. Follow missing rule

Exhibit: Paper Birds. Duration: not supplied.

4. Check contract

Check labels, two-line format and each factual claim.

CHANGE ONE THING

Add source B naming the same exhibit duration 20 minutes, with B declared current and authoritative.

Explain the changed result using the matching lesson.

What must happen if B instead conflicts with another equally authoritative duration record?

My picture-based explanation and changed-case prediction

Support used: alone / hint / worked example. This record is practice evidence.

Project connection: Specify sorter input, output fields, evidence limits and missing/conflict behavior before improving its wording.

19. Project portfolio milestone

Project: Helpful Classroom Sorter

Current milestone: Prepare the demonstration. Gather reproducible instructions, evidence, access checks and remaining limitations.

Specify sorter input, output fields, evidence limits and missing/conflict behavior before improving its wording.

Evidence to keep · My record

Evidence to keep: This week’s input and deciding step

My record: _____

Evidence to keep: Prediction and actual result (or labelled paper trace)

My record: _____

Evidence to keep: One change since the previous checkpoint and why

My record: _____

Evidence to keep: One error or limit and the next test

My record: _____

Explain what this week adds to your project. Reuse last week’s record rather than starting again.
